ForewordGipsyn's Introduction to **The Wandering Jew**

LOST & FOUND

Overby, Gjovik, Norway

I am *Gipsy Epimetheusson*, alias *Gipsyn*, the Printer of the book. I tell you beforehand that this book has been retrieved from a USB Thumb Drive which was found in the village Overby of Gjovik in Norway. Overby is a tourist attraction at the uppermost corner of Gjovik. I visited that place many years ago in the month of February. It was the week of winter vacation when schools were closed for sports. Many children came to Overby to ride sleigh or to train skiing. All of them were shouting. Suddenly I heard one kid bursting in excitement, -"Dad, there behind the house, I have seen a Troll walking away!" I looked up towards the site he had pointed out. His father was perhaps tired, and he shortly replied "May be!" Children in Scandinavia believe in Troll.

Beware of Troll

A few days later, after my visit to Lillehammer, I visited Overby once again. Curiously, I walked towards the place the boy had pointed out to see more of the huts, and to take photographs. There, the slates used for the roof of the huts attracted me, and I planned to steal a piece of slate as a souvenir. I went to the backside of a hut, and looked around whether anyone could see me, and then quickly I put a piece of slate in my rucksack.

Piece of Slate

USB Thumb Drive

The mist began to disappear slowly when the Sun, resembling a full Moon, had peeped at the horizon. On my way back, I walked carefully along the slope, lest I fell backwards which could be fatal. At one of my steps when the snow had been splashed away, something peculiar came out. I picked it up and cleaned it. It was a USB thumb drive of 8GB from Sony, not any antique thing.

I stood for a while to see whether there was anyone nearby. I saw none. It was lunch time, and all the visitors had gone home. I could leave the thumb drive there as well. But, I feared that it would be soon lost in snow. Therefore, I took it in my pocket in the hope that I will be able to find its owner.

The place in Overby where the USB Thumb Drive was found

I took the "By Buss" to CC in Gjovik to have my lunch. There in the shopping mall I watched for a long time the old painting of a cart sinking in the middle of ice-covered fjord Mjosa where a priest standing at its bank was praying for the terrified half-drowned horse that pulled the cart. Then, before sunset, I went for a walk near Mjosa. All the time I pondered what to do with the Thumb Drive. After dinner at Peppes Pizza at Bjornsonsgate, I came back to my room in Gjovik Huvudetun Hostel. At last, I decided to try retrieving that thumb drive in my laptop. I succeeded. But, there was no address of its owner.

The contents of the USB Thumb Drive was a manuscript of a book with the title "Food and Drug Alucinatum for Human Soul". The writer of the book was an unknown author, "The Wandering Jew". Never before had I heard about him. Then from "Google" search, I learned that "The Wandering Jew" alias Isaac Ahasver was a contemporary person of Jesus Christ, and he was doomed to keep going until the Second Advent. That was in fact a biblical myth. But, at that moment, a sceptic like me fell from the sky. It was difficult for me to believe that "The Wandering Jew" was in Overby a few days ago, whom the kid who had seen there, and thought that the guy was a "Troll".

Now, ten years have passed. All my efforts to trace "The Wandering Jew" was in vain. Then, in my seventies, when I was lying in hospital for a week and every morning I used to thank God for one more day in my life, I decided to print the book against the advice of my friends. They told me to throw away the USB Thumb Drive into the bin, because the contents of the book would open the old wounds of our souls healed by Delusion. But, it may be too late if I wait further. So, I decided to publish the book. I do not regret it, but I like to disclaim the contents of the book because I am not the author.

Now, I also believe that the restless Wandering Jew has been travelling around the world for two thousand years. Out of his curiosity like Pandora, he wanted to know what Jesus had meant by "Man cannot live on bread alone". What are the others? Tolstoy speculated that "Affection lives in man and man lives by Affection". According to The Wandering Jew, Affection is one *Vital* food item without which man cannot live. But, there are many more food and drug items essential for the soul.

Princess and Troll both exist

In want of food and drug for the soul, one rushes to despair and death. "The Wandering Jew" compared that empirically to that of ants rushing to suicidal death-mill at the loss of their sense of *pheromone* of the Queen. He gave a name for the food and drug for the human soul: Alucinatum. Humans also proceed in a spiral path of exhaustion and ultimate death in want of Alucinatum.

The author of the book asserts firmly that while a normal intake of Alucinatum is essential for good health of the soul, any voracious intake of Alucinatum is dangerous, and that can make anyone a murderer, a martyr, or both.

That is all what I wanted to tell you in the introduction about the mysterious author "The Wandering Jew" alias *Isaac Ahasver* and his book "Food and Drug Alucinatum for Human Soul". Curiously, the author has left quotations at the beginning or at the end of an article without giving any reference, perhaps to engage the reader to search the source.

At the end, I thank myself for the opportunity I have got to tell you the whole story about the USB Thumb Drive lost by the author of this book in Overby of Gjovik in Norway which was accidentally found and retrieved by me.

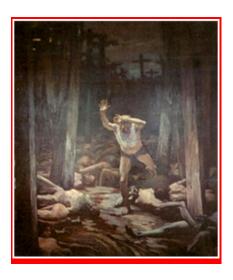

Gipsy Epimetheusson - The Printer of the book

Excerpt from Holy Bible: The Wandering Jew

-"Awaye, thou king of Jewes, Thou shalt not rest thee here; Pass on; thy execution place Thou seest nowe draweth neare."

And thereupon he thrust him thence;
At which our Saviour sayd,
-"I sure will rest, but thou shalt walke,
And have no journey stayed."

THE WANDERING JEW

(The lost and found USB Thumb Drive retrieved)

My name is *Isaac Ahasver* whom you know as "The Wandering Jew". Two thousands of years ago I witnessed the crucifixion of Jesus. On the following Easter Monday, I was one in the crowd of perplexed men and women who had gathered to see the open grave of Jesus where he had left his coffin.

I heard a voice in me: "Isaac Ahasver, he survives who can flee away!" So, I gave up my job as the Gatekeeper of Pilate Pontius, and I left "The Cursed City" Jerusalem behind me to pave my way out of Palestine via Jericho. I was out of the reach of the Romans during the genocide. Since then I have been travelling all around the world. I keep on going, and you know that I cannot stop moving until Jesus comes back.

My self-portrait

During my walk for two thousand years, I often pondered what Jesus had meant by "Man cannot live on bread alone". Infatuated like Eve to taste the Fruit of Knowledge, and infatuated like Pandora to open the box in which "Miseries" and "Hope" were kept hidden, I was infatuated to know what are the others than bread and water without which man cannot live.

At last, when I had got the answer, I decided to write it down in a Laptop. But, I did not have any. During Christmas I dress myself as Santa Claus, and loiter around people in the shopping centres. But, all the Laptops there were coupled with an alarm. I had to wait. My opportunity came during one Christmas Eve when I saw Santa Claus sleeping. I doubted a packet in one of his large sacks could be a Laptop. I picked it up carefully. It was a Laptop! The Christmas Gift of that year was a Laptop. That was my Christmas gift, I suppose. Then, it was not difficult to pick up a USB Thumb Drive from a shop in the disguise of Santa Claus during the sale between Christmas and the New Year.

Santa Claus sleeping

I assure you that I am neither a Messiah, nor a Bellwether, but heretic "The Wandering Jew" *Isaac Ahasver* who has been doomed to keep on going until the Second Advent. I have escaped nine times from being burnt alive by the Churches upon stakes together with scholar men accused of heresy, and wise women accused of witchery. I saw hundreds of them being burnt to death, and once I wished to tell *Weeping Guillou* more about that.

I saw hundreds of women being burnt to death for "Witchery"

I am two thousand years old, and still I can walk! But, I confess that now I am very tired. I want to take a rest. Isaac Newton has calculated that the Second Advent is to come in the year 2060 when he himself will be resurrected as one of the 460 saints. So, if Newton were right, there would be only a few decades left.

I am an ugly old haggard. So, I usually keep myself away from people. Since the end of the last century, I have been travelling in Scandinavia. As I have said before, during the Christmas period I dress myself as Santa Claus, and I stroll around people. During the other parts of the year, I keep myself away from people here and there, and they think of me as a *Troll*. I have always been interested to hear from children because they are naive like me, and I usually hide behind the bushes to listen to them. One day from the children I got the clue about the items other than bread without which man cannot live.

Here is the story. In one morning I was walking behind a bush at the outskirts of the courtyard of a primary school in southern Sweden. There, I heard two little girls debating which of their two teachers, *Froeken* Linda or *Froeken* Hamida had seen Jesus. I understood that Linda was much older than Hamida. Then I laughed to myself. Children have no idea about the time of thousands of years. They think *Froeken* Linda had seen Jesus because she was quite old while *Froeken* Hamida did not see Jesus because she was much younger.

But, later when I tried to understand what children think about Jesus, in my fantasy I became one of them. I understood that it was not about the age of their teachers. The statue of Jesus in a Church was alive to them. Therefore, according to them, *Froeken* Linda could see Jesus in the Church while Froeken Hamida had not because she did not go to Church. The statue is not always only a statue. In the world of the soul, the statue we adore is a living one. Logic which takes one from A to B, fails here. It is Fantasy which can take anyone anywhere. In that world the statue of Jesus was equally alive. Then, I got *Buddha's smile*.

My theme can be elaborated with the example of the ants. In the wilderness, I have observed the ants a lot. The ants are also social beings who live in their Queendoms, bonded by the smell of *pheromone* of the ant Queen.

The ant workers and soldiers *adore* their Queen, and their Patriotism keeps them ready to die for the Queendom. Their motto is: *Eat*, *Survive*, and *Adore*. There is something in the ants which gives them the spirit to live and die for their Queendoms. The Adoration and Patriotism of ant workers and soldiers arises from the smell of *pheromone*, and when the ants lose that sense, they rush to commit suicide in a *Death-Mill*. Ants cannot live on bread alone.

Ants commit suicide in Death-Mill.

Adoration by the human soul does not arise from any chemical like *pheromone* which is detectable by the physical senses. Adoration itself is an *abstract pheromone* made out of the sixth sense, the "Mind". Adoration is not a food for the stomach, but for the Soul. Out of Adoration we drink and eat the "blood" and "flesh" of *Jesus* as Barmecides feast. Adoration of a Crucifix is implied with an immaterial "something" in it which is undetectable by the physical senses.

We can give such abstract elements such as Adoration or Patriotism a general name in Latin: *Alucinatum*.

One, who out of infidelity, cannot digest an *Alucinatum* for the soul, proceeds in a spiral path of despair, exhaustion and death as the ants do when they lose the sense of *pheromone*, because man also cannot live on bread alone.

From the perspective of *Phenomenographic Pedagogy*, Alucinatum can be classified in qualitatively different three categories:

i) Vital Alucinatum ii) Primal Alucinatum and iii) Supernal Alucinatum.

Vital Alucinatum is Individualistic,

Primal Alucinatum is for Social Group, and

Supernal Alucinatum is Universal.

Each of these three categories of *Alucinatum* has four varieties.

Vital Items: Infatuation, Affection, Delusion, Adoration

Primal Items: Egotism, Altruism, Gnosticism, Superegoism

Supernal Items: Paganism, Utopism, Dogmatism, Patriotism

It has been observed that a gross intake of some *Alucinatum* can be fatal like that of water-poisoning. Water is essential for life, but drinking six liters of water at a time can kill anyone. Thus, an excess intake of an *Alucinatum* can make one a murderer, a martyr, or both! Determinists claim that this happens only if some variation of genes are embedded in the DNA. But, all agree that the objective conditions can activate or can silence those genes. It is *Alucinatum* which can activate or silence the good or bad genes.

Scientists wonder why civilisation is scarce in the Universe although there are billions of planets like the Earth? Hawking says it is because a civilisation can destroy itself when the technical development becomes incompatible with the cognitive development of the creatures of a planet. So, we can think that the abolition of a civilisation occurs when the creatures there get weapons for mass destruction at the time when the action of some Alucinatum overwhelms that of Alucinatum Affection and Altruism.

Extinction of Dinosaur and Homo sapiens

There are good reasons to believe that Issac Newton has calculated correctly that the human civilization on the Earth will end in the year 2060, the time when Jesus Christ will come back.

We know that Affectionless Psychopaths have been abundant on the Earth in all ages. But the Affectionless Psychopathy appearing now as living fossils have got terrible weapons at their hands in place of stone-axes, bronze-spears, and iron-swords. The technical development of the Homosapiens today is incompatible to their cognitive development which is still as primitive as it was tens of thousands years ago. However, the extinction of the Homosapiens will occur not only due to the violent actions of the Affectionless Psychopaths who have got nuclear wisdom teeth, but also due to the appalling silence and indifference of the good people for which Martin Luther was more afraid. Dinosaurs went extinct due to natural catastrophe. Therefore, Homosapiens will destroy themselves when they become very greatly addicted to Alucinatum Egotism, Paganism, Dogmatism and Patriotism, while they will dramatically give up the consumption of Alucinatum Affection and Altruism.

Resurrection in the year 2060

That is all I had to say at the introduction of my book. I thank you for listening to me, *The Wandering Jew* who is doomed to keep on going until Jesus comes back. Anyway, I am also very tired, and I am eagerly waiting for the comeback of Jesus Christ when my long journey will come to an end. You all are aware that the year 2060 is not very far away.

[&]quot;Time flies. Man digs his own grave. But not those who have faith in Good Deeds and Practise that, and unitedly preserve Justice, and have Patience."

Alucinatum in Life

Alucinatum at the beginning of life

"It is my pledge to the Neonatal, I will make this world worth living!"

A child cries at birth. Nobody knows why. Maybe it is due to the separation from the *Placenta* that took care of the baby for nine months, and when the umbilical cord is cut off. Then the child may cry out of fear. The cry of a neonatal stops at the Touch of the mother's body, and from the Taste of her breast milk. A baby has the primary senses of Touch and Taste since birth.

Touch and Taste

During the period of labour pain, the intake of a few drops of Holy Water is good for an exhausted mother. Holy water is beneficial also for a neonatal.

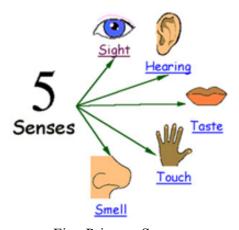

Holy Water at Birth

Holy Water is apparently like ordinary water, but some undetectable and immaterial thing has been added in it. Holy Water is useful afterwards throughout the life of the child, in blessings, in confirmation, in curing physical or mental sickness, and at the end of life, in burying or cremation.

A human child belongs to a higher art of animals who has the sense of Sight and Smell, in addition to the senses of Touch and Taste. Many people depict some peculiar signs around a neonatal and the mother in order to protect them from evil spirits by the occult power of Holy Sight. Those who would harm the child or the mother, fear in the supernatural power embedded in such Holy Signs, and refrain from evil acts. The fragrance of some herbs and chemicals, as Holy Smell may comply with the other rituals.

Five Primary Senses

The highest species of animals like humans have got a fifth sense, the sense of Hearing in addition to the four other senses of Touch and Taste, Sight, and Smell. Many people have the custom of making some specific kind of Holy Sounds, depending upon the gender of the neonatal. Some people utter some hymns, and then blow air in the ear of the neonatal. Some people make Holy Sounds by rapid vibration of the tongue, and some others make ritual Holy Sounds by beating plates or tools in order to drive away evil spirits.

Holy water, Holy smell, Holy signs, and Holy sounds have some undetectable and immaterial ingredients which have been used by our ancestors in the preparation of foods and drugs for the soul. Such foods and drugs have many different names, but here we give such an item a general name Alucinatum.

Sixth Sense Mind

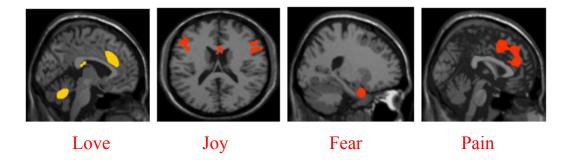

"Sixth sense is at the core of our experiences. It is what makes experiences out of events."

As the highest species, humans have senses of *Hearing*, *Sight*, *Smell*, *Taste*, and *Touch*. But, none of these senses are fully reliable. When we are in a train which is standing at a station while another train beside is in motion, we often become puzzled by the unexpected apparent motion of our train.

We all know an apple, from our own experience from the senses of smell, touch and taste. It has been found that if a blindfolded person is given to chew a piece of peeled fresh potato while the aroma of apple is given through the nose, the person would think it was an apple, not a potato. In absence of the sense of sight, the Smell overrides the Taste sense of the tongue.

The mimic of a speaker should comply with the oral speech. If not, then the language of body movements overrides the oral speech, because the sense of Sight attracts the observer more than that of the sense of Hearing.

All of the five physical senses have to be interpreted by the sixth sense, the Mind, which is the most sophisticated sense. The physical senses are attached to the physical body while the sixth sense is attached to the soul. The five physical senses work with material things only, while the sixth sense Mind can work both with material and immaterial things. The Mind is a vulnerable sense which is propped with many Alucinatum since early childhood, under threat of sticks and temptations of candies, in order to make us fit us to the norms of the society. The origin and effect of the intake of Alucinatum is understood qualitatively, but a quantitative understanding of that is still far away.

[&]quot;Women have a perception much more developed than men by developing the sixth sense."

Alucinatum in Death

"A poor player that struts and frets his hour upon the stage, and then is heard no more."

Death is the cessation of life and an irreversible process. Images of terrifying Grim Reaper, skeletal limbs, and the tombstones are associated with death. Whether the soul is an immortal entity integrated to a physical body, or a temporal entity assimilated in a physical body, there is no return after death. The fear of disappearing in death is ingrained in taboos and superstitions. Our lives would be much more miserable in want of Alucinatum, the most grand resort to comfort us after we say adieu forever to our dear ones.

It is told in the Bible that Abel, the younger son of Eve and Adam was killed by his elder brother Cain on a rivalry over their more beautiful sister Acklima. The grief of Eve and Adam for that tragedy was boundless, much more severe than that for the banishment from the Paradise, or their separation on the Earth for a long time. To comfort the wounded souls of Eve and Adam, we have proclaimed Abel as the first Martyr and have built a Mausoleum over Abel's grave which is a Holy pilgrimage for the descendants of Eve and Adam.

Pilgrimage to the Mausoleum of Abel

A cemetery is a well respected place all over the world, from where the dead remind us of them, tell us when they were born and when they died, and they remind us that once upon a time they were like us, and one day we also shall become like them. Most of the people of the world believe that although the physical bodies disappear into dust, one day all the dead will be resurrected out of their immortal souls.

Decay of the Physical Body

"Dust thou art, to dust returnest."

The body temperature starts to fall at death. Certain chemical processes of the body continue for several hours after death. The segmentation of retinal blood occurs within one hour of death. As the muscles of a dead body lose shape and contour, the body flattens over areas in contact with the surface.

After initial flaccidity, the muscles of a dead body start to become stiff within three to four hours which disappears after two days. The joints of the dead body become fixed, and repositioning of the limbs is only possible by applying brute force.

It passes then into the secondary muscle flaccidity. Noises may come out also on some occasions if gases reverberate against the vocal cords. Sometimes the feet and legs of a corpse are seen to twitch hours after death which fuelled the horror stories about the arising of the dead.

If a man or an animal is beheaded by a machete or sword, the brain can see and hear for about half an hour afterwards. Muscle stiffening occurs at the moment of death when a person had died violently, one who had committed suicide or in death by drowning or poisoning as well.

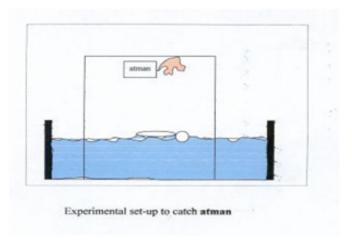

Dust thou return

Little by little, the whole body of the dead is taken apart. The eyeballs, the stomach and the intestines are the first to go. The heart of the dead becomes thin walled and flabby. The spleen, the lungs and the brain become at first mushy, and then break into pieces. Only the skeleton is left for a period of time. At the end everything of the body returns to dust.

Departure of the Soul

"Dust thou art, to dust returnest, Was not spoken of the soul."

Indian experiment to catch Human Soul

We know much about what happens to a dead body, but the whereabouts of a departed Soul is unknown. According to Indian Holy Veda, the Soul is a greenish-yellow liquid which at death sublimes out of the body. It is then to be integrated in another physical body if not purified. An experiment to catch the escaping human Soul by drowning very young children within a tightly closed glass-chamber over a water pool, has been reported to be futile.

In Hellenic Genesis, Prometheus, a grandson of Goddess Earth Gaia, made a human body out of *clay*, and Goddess Athena blew into humans the Soul made of *Aither*. So, after death, Goddess Gaia takes the body as it was made out of her, while Zeus, the father of Athena, takes the Soul away to Heaven.

Departed Soul in Walhalla

These are seven qualitatively different conceptions of the Soul. The first two groups belong to *Pantheism*. In these categories, the *Immortal Soul* is recycled until it becomes pure. The conception has two varieties from the dichotomy about a Creator and His Incarnation.

Three other groups of qualitatively different categories arise in *Monotheism* and *Panentheism* in which the Immortal Soul is Integrated in a body by a Creator. Then the dichotomy of Incarnation or Recycle of the Immortal Soul divides *Monotheism* and *Panentheism*. On the dichotomy of Incarnation and Recycle, *Panentheism* also has two varieties.

In a radically different conception, the Soul is not an *Immortal* entity, but a *Temporal* entity which is assimilated in a physical body. This conception is *Humanenism* which has been always antagonistic to the other conceptions.

Then from the dichotomy about a Creator, *Humanenism* differs into two qualitatively different categories.

The seven qualitatively different conceptions of the properties of the Soul based on *Immortality, Recycling, Creator, Incarnation* is tabulated here.

	Immortal	Recycling	Creator	Incarnation
	Yes/No	Yes/No	Yes/No	Yes/No
Pantheism	1	1	1	1
Pantheism2	1	1	0	0
Monotheism	1	0	1	0
Panentheism	1	0	1	1
Panentheism2	1	1	1	0
Humanenism	0 (Temporal)	0	1	0
Humanenism2	0 (Temporal)	0	0	0

Whether the soul is Immortal or Temporal, the seven conceptions of the Soul give us a temporal or a quasi-eternal immortality. However, a few Immortal Souls can be fastened to the Earth and become *Ghosts*.

Soul gives immortality

Anyway, very few people today believe that the dead become stars in the sky. No more the dead can affectionately take care of their beloved from above so high. But, most people believe that the departed Souls visit the Earth at least once a year. Carnival, Halloween, or some other rituals for that Holy/Special Night are observed to celebrate their visits.

Trick or Treat in Halloween Night

Catering of Alucinatum

"There are only three things women need in life: food, water, and compliments."

The intake of an Alucinatum makes us romantic and can keep us optimistic in hopeless situations, and enables us to overcome or lessen the fear and agony of death. A soul which is not fed with an Alucinatum is hopeless one, and often that life is of shorter length.

In all three stages our grief: *Shock*, *Rage*, and *Reconstruction*, an Alucinatum is the best drug to console us. Those who believe that Soul is not an immortal entity integrated to a body, but a temporal entity assimilated in the body, find some romantic comfort from the intake of an Alucinatum. On the other hand, a gross intake of an Alucinatum can cause irrecoverable damage to one's life as severe as water-poisoning, making life dramatically short.

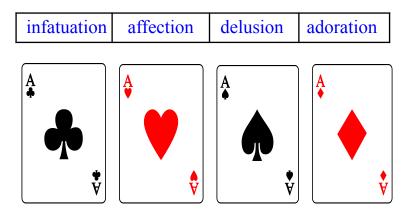

The *selfish DNA* inspires someone to sacrifice his/her own life for the sake of two siblings or eight cousins when oxytocin hormone is secreted. It is because siblings carry 0-100 % (maximum probability ½) and cousins carry 0-25% (maximum probability ⅓) identical genes.

Vis-a-vis, any of the Supernal Alucinatum: Paganism, Utopism, Dogmatism, or Patriotism can give someone a meaning in life and in death. One can get a desire to sacrifice all in the cause of the people who are fed with the same Supernal Alucinatum.

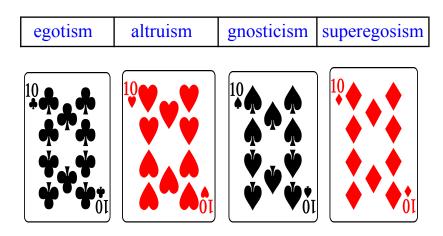

The Vital Aluciantum Delusion is a strong drug which enables one to defy all vivid evidence, and to revive "something" dead. Then when the "Bell" tolls, people addicted to Delusion follow their respective Bellwethers in groups as the cattle do towards the slaughtering house.

An association of the different categories of Alucinatum items can be depicted as shown below with playing cards:

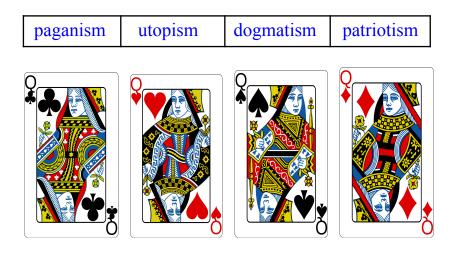

Vital Alucinatum in Individual Perspective

Primal Alucinatum in Social Perspective

Supernal Alucinatum in Universal Perspective

Four Bases and Four Temperaments of the Soul

The seat of the soul is uncertain. The qualitatively different seven conceptions of the Soul give a qualitative description of the soul. The classical four *Bases* of the twelve Alucinatum or Food and drug items for the soul, and the related classical four *Temperaments* can be presented in a table as shown below.

The classical four Bases are Egos, Pathos, Ethos and Lagos. Egos, or the "Me" is a *Base* serving Alucinatum for "*Self*". The Bases Pathos and Ethos lie at the periphery of "*Me*". A child gets these *Bases* from natural instinct. The fourth *Base* for serving Alucinatum is Logos which is given to a child by the society.

Egos	Pathos	Ethos	Logos
vital A	vital B	vital C	vital D
primal A	primal B	primal C	primal D
supernal A	supernal B	supernal C	supernal D
Sanguine	Melancholic	Phlegmatic	Choleric

The four Temperaments are: *Sanguine* (optimistic), *Melancholic* (pessimistic), *Phlegmatic* (serene), and *Choleric* (haughty).

choleric, sanguine, melancholic, phlegmatic

Part I

VITAL ALUCINATUM

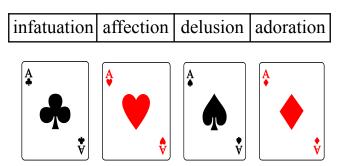

Vital 1A Infatuation

Vital 1B Affection

Vital 1C **Delusion**

Vital 1D Adoration

Vital Alucinatum consists of four Alucinatum items Infatuation, Affection, Delusion, and Adoration, which for convenience are associated with four playing cards respectively.

Vital Alucinatum items are essential for the soul from an individual perspective, like that of vitamins for the physical body. Metaphorically the four Alucinatum items, Infatuation, Affection, Delusion, and Adoration are served from the four Bases: Egos, Pathos, Ethos, and Lagos respectively.

The action of the four Alucinatum items are related to Hippocrates' four Temperaments of the Soul: *sanguine*, *melancholic*, *phlegmatic* and *choleric* respectively.

Egos		
infatuation	affection	
egotism		
Sanguine		

"Give me my Romeo; and when he shall die, Take him and cut him out in little stars. And he will make the face of heaven so fine; That all the world will be in love with night!"

The intake of Vital Alucinatum Infatuation makes one enthusiastic to pursue after something or someone parochially. She/he thinks that without that thing or person her/his life would be miserable and meaningless. Infatuation drives one to silly, crazy, and insane activities, and it is a crush.

Infatuation Zombie

Addiction to Infatuation makes a person a real *Zombie* in flesh and blood. Aluciantum Infatuation has four varieties: *Celebrity* infatuation, *Passion* infatuation, Infatuation with *Money* and Infatuation for *Eden*.

Celebrity Infatuation

"In the presence of the Moon nobody sees stars."

Pheme: Goddess of Celebrity

The Goddess of Celebrity appeared before our eyes when we were still babies. A baby gets applause in early childhood when she/he can sit on or stand up by her/his own effort. Children get applause when they can creep onwards or can totter forwards. That is a long process for a child which needs great patience and much efforts of oneself as well as of the caretakers.

The garlands obtained in early celebrity forces us to "double double, toil and trouble" in the long span of life, and to go further and further, and to get more and more fame and more glory. Fierce Bull-fight for Celebrity, with the motto "To Be or Not To Be", appears since the early part of life.

Inglorious Glory

The gladiators who had survived many duels before becoming martyrs, were adored by all Roman aristocrats. That kind of entertainment from watching such primitive games is inherited by many of us.

Gladiator Stadium

Glad Idiot Victor and Martyr

Celebrity infatuation makes one insane in school, college and afterwards in professional life. Celebrity infatuation can inspire one to become a hero at the risk of one's own life. We take such great risks because the nectar of Celebrity gives us the means to fulfil other infatuations for which our souls are hungry.

In the competition for Celebrity, the boys demonstrate their *Capacity*, and the girls exhibit their *Beauty*. From the "*Theory of Games*", a boy of celebrity gets the optimum chance in the choice for brides, while a "*Miss Universe*" may have a Passion Infatuation to have a child begotten by a man of celebrity, and thus inherit an Eden on the Earth.

To become a Celebrity Idol that needs both good luck and endeavour, but the most important factor for success is cleverness. People all over the world are unreasonably infatuated with Celebrity Idols who are rewarded with scandalous fame, excessive wealth, and visible power. Adoration of Celebrity idols creates hooligans. People cherish the life of a great Celebrity, but that is seldom attainable for common people who then hope that their children will achieve Celebrity to compensate for their own agonies. A strong Celebrity Infatuation usually leads one to stroke, brain haemorrhage, heart disease, and even tragic death. The losers as well as winners in the lunatic "*Musical Chair*" game of Celebrity Infatuation become addicted to Narcotic Drugs or Alucinatum Dogmatism, or both.

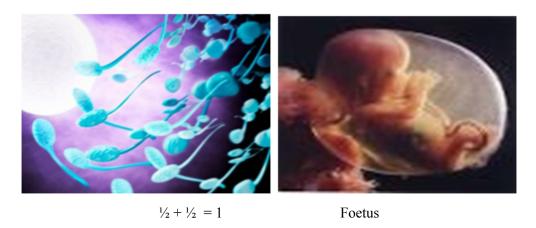

Passion Infatuation

"She realised that Love was that moment when her heart was about to burst."

Cupid and Psyche

Since the beginning of adolescence Passion Infatuation appears as a part of life. Passion Infatuation is biologically associated with a short lived "Hedonic Joy" that sends shivers down the spines with the urge for sexual union. When the arteries carry the fire of lust, the centres of Love and Joy in the brain are activated, while those of Fear and Pain are shut off. Then, at the auspicious moment, billions of sperm leap out to compete in fertilising an egg.

Passion Infatuation serves the purpose of reproduction along the path of "Joy" of at least one partner, often of the male, and that can bring Affection between two souls if that comes from the both. Consciously or unconsciously, Passion Infatuation is behind the performance of songs, music and dances.

..and thy seed hath been abundant as the dust of the earth..... - Genesis 28:14

But, there is an *Achilles heel* in that "Joy". The body defence is kept away from the reproductive system because white blood cells consider a sperm or an egg, being ½ cells, as an intruder. Many harmful viruses and bacterias find a free passage during sexual union when one partner has got that in the body.

Passion Infatuation with the urge for incest has occurred in all ages under precarious situations which has been a scornful taboo in civilised societies. Surprisingly, abnormal sexualities such as stalking, pedophilia, rape, or bestiality practised by the perverts is not a crime in some societies.

Masturbation (*Khajuraho*)

Bestiality

Passion Infatuation can activate the rewarding receptors of sexual pleasure from the imagination about a real partner. Nowadays, sex toys are becoming more developed and commercial. The art of *Masturbation* has been depicted in many ancient temples, and its benefit is controversial. *Wet-Dreams* occur from one kind of peculiar Passion Infatuation which is deleterious for health.

Infatuation with Money

"All money is a matter of belief."

Goddess of Wealth and Power

When the children of Eve and Adam became shepherds and cultivators, the shepherds could have food grains from the cultivators in exchange for cattle. But, sometimes the cultivators had no need of exchanging food grains for cattle. That caused conflict and antagonism. Then the shepherds had to steal or rob foodgrains from the cultivators.

Cowry Shells as Money in trade

The introduction of Cowry Shells for exchange of food, goods, cattle, and slaves was a great idea. The use of Cowry Shells as Money was a matter of belief. Overseas trade flourished in Asia and Africa from the use of Cowry Shells as Money. A new profession of traders emerged who were the Bankers of Cowry. At the introduction of copper, silver, and gold coins, the use of Cowry Shells as money became obsolete, and the word *Cowry* became a synonym for Money in some oriental languages.

Although all kinds of Money is a matter of belief, it is a measure of wealth and power. Money binds the producer with the consumer.

Gold coins of Alexander the Great

Credit Card

Money became a mysterious thing at the introduction of Paper Currency Notes, and furthermore a matter of belief when it became independent of the assets of its producer. With the introduction of Credit Cards, Money has become a part of virtual reality.

Money is now abundant in the world. Yet people complain about no other thing than the scarcity of Money. When the cities are growing, more and more people have become bound to insecure life, and more Infatuated with Money. Men can afford high standards with home, car and other luxury items as long as they can pay the rent to the financial institutes. Thus, most people live today in debtors' prisons. Man has to take risky, health-hazard or loathful jobs in order to make both ends meet for self or of the family. Many families have collapsed from infidelity arising from Infatuation with Money.

Vital Alucinatum Infatuation with Money is behind the production, sale and smuggling of drugs and weapons, robbery, stealing, cheating, corruption, embezzlement of public money, trafficking, bribery, forgery, and many other vices. Paupers who are Infatuated with Money, but have no opportunity to steal, no courage for robbery, no eligibility of taking bribes, nor intelligence to cheat, go to buy lottery tickets which makes them poorer. Infatuation of Money has created unprecedented inequality worldwide from "Nominal Rich" of one million dollar to "Supreme Rich" of one hundred billion dollar. Today, one or two hundred "Supreme Rich" can buy the whole world if they wish.

Infatuation of Eden

"Rabbana atina fid-dunya hasanatan wa fil 'akhirati hasanatan waqina 'adhaban-nar!"*

The biological clock *Telomere* in the body-cells limits the period of life with Infatuation for Celebrity, Passion and Money. Death is inevitable for all and an irreversible process. In the limited time of life, the people of the world cherish the Infatuation of Eden on the Earth and as well as that in Heaven.

Although everyone wishes for a little Eden of his/her own on this Earth, that is achievable only by a few people who are born lucky, and a few others who by luck can buy a little Eden on the Earth. The vast majority of the people live and work with the Infatuation of Eden in Heaven after death. Most of those who live in Eden on the Earth, also have got Infatuation for Eden in the sky.

Although Infatuation of Eden is common worldwide, people disagree about Eden on the Earth and in Heaven due to qualitatively different conceptions about the Immortality and Recycling of the soul, a Creator and Incarnation.

Essence of the Soul: Immortal, Recycling, Creator, Incarnation

	Immortal	Recycling	Creator	Incarnation
	Yes/No	Yes/No	Yes/No	Yes/No
Pantheism	1	1	1	1
Pantheism2	1	1	0	0
Monotheism	1	0	1	0
Panentheism	1	0	1	1
Panentheism2	1	1	1	0
Humanenism	0 (Temporal)	0	1	0
Humanenism2	0 (Temporal)	0	0	0

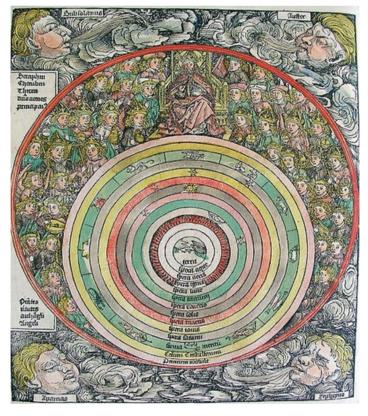

Seven Qualitatively different conceptions of the Soul

^{*} My Lord! Grant me good in this world and good in the next world, and save me from the chastisement of the fire!

This is my Eden my Darling!

In the conception of Humanenism, a *Temporal* soul is assimilated in the body. There may be a Creator who has made the universe, but there is no eternal Eden in the sky where the spell of the Creator will end. Never a flower that has fallen down blossoms again. Their Infatuation of Eden is limited only to that on the Earth.

Eternal Eden in the Sky

The conception of an *Immortal soul* integrated in the physical body which travels to Eden in the Sky after death is held by Pantheism, Monotheism, and Panentheism, and that is radically different from that of Humanenism. The conception of the *Immortal* soul in these three categories differs qualitatively by dichotomy. In phenomenography, the qualitatively different categories cannot describe an individual, because an individual can come in more than one category.

The vast majority of the people of the world live in two worlds. The present world is comprehensible with our five senses. The other world is spiritual one which can be perceived by the sixth sense, the Mind. People want personal rewards in that world for their *Immortal* soul. Infatuation for Eden in Heaven is the last resort of unlucky people to achieve tranquillity. They hope and pray for all benefits from which they have been deprived on the Earth.

Although the garden of Eden in the sky is out of the sight of human vision, the Infatuation of Eden gives people a purpose to the movements and use of the physical body. The influx of the spiritual world can inspire people with many qualities. The spiritual companions of the dead in dreams and visions filled with such thoughts can be precious for people left in lurch in their old age.

Eden in Heaven

Our forefathers could see the sky or Heaven unfolded from their Infatuation of Eden. They had the companions of the dead when asleep, as well as when awakened. In their dream they could receive instructions from the dead to guide them. They had no loneliness or emptiness which often accompanies many of us who have no Infatuation of Eden in the sky.

Egos	Pathos	Ethos	
infatuation	affection	delution	
egotism	altruism		
Sanguine	Melancholic		

"Oh, Lizzy! Do anything rather than marry without affection!"

Eve and Adam discovered Affection on the Earth

When Eve and Adam were accused of eating the forbidden fruit, they blamed each other out of "Prisoner's Dilemma". Adam pleaded himself innocent, and he blamed Eve for the deed. It was Eve who had given him the forbidden fruit. Then Eve got the severe punishment of bearing the labour pain.

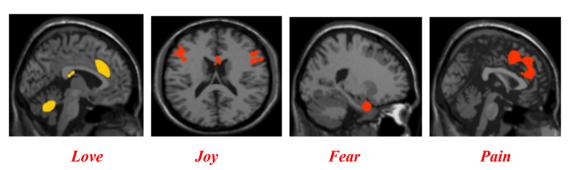

When Eve and Adam were separated from each other for a long time, they achieved not only emancipation, but they also got "something" due to their longing for each other: Affection. They did not have such Affection in Heaven, and therefore they had selfishly blamed each other. Out of Affection Eve and Adam shed "Tears" for their separation. In the Eden of Heaven, there is everything except Affection and Tears which belongs only to the Earth.

Affection is the second Vital Alucinatum for the soul, emotional feelings for anything or anyone. Affection is distinguished from love of spasmodic Passion Infatuation, and it is referred to a long lasting love, more than goodwill or friendship. The intake of Alucinatum Affection makes us feel more secure in daily life and fear less in bad situations. Affection gives one long lived Eudaimonic happiness, as well as lifelong sorrow in loss of an affectionate. Affection gives us joy for mental and physical well-being, and the warmth, as well as it can be a cause for anxiety, sadness, and grief.

Laila and Majnun

Laila and Majnun have had Affection for each other since childhood. But, Laila was given in marriage to a rich man for whom Laila had no Affection. She remained infatuated with Majnun. It is told that whenever Laila was being flogged by her husband due to her Affection for Majnun, sitting very far away Majnun also at the same time got pain and markings at the same places of his body. That was unbelievable until recently it has been found that Love, Joy, Fear and Pain are interactive between persons of Affection. It is believed that a mother can sense the trouble of her child before she gets a message.

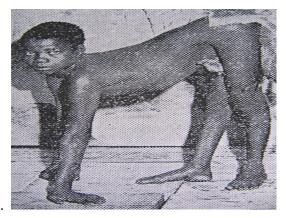

Natural Affection

"If equal affection cannot be, Let the more loving one be me!"

Affection is an inborn need and capacity of giving and receiving care. Humans can have Affection for humans, as well as for animals and things. Affection is associated with relational investment, satisfaction and commitment. It has been found that hormonal and cardiovascular changes occur in giving and receiving of Affection. In children, Alucinatum Affection can increase their positive sentiment, and consequently that positive sentiment increases their propensity to interact with people and give the world Affection in return.

Affection is not a monopoly of only humans. Many animals can also give and take Affection as humans. A number of human children brought up by animals, called *Feral Children* have been discovered who were living with their foster animal mother.

One of such Feral children was discovered a hundred years ago in an Indian jungle. Some British tiger hunters captured a teenage Indian girl who was brought up by her tigress foster mother. The tigress mother was killed easily because she did not run away leaving her foster daughter alone. The captured girl was named *Kamala*. The girl never recovered from her grief for the murder of her foster mother, and she died only after a year. As long as *Kamala* lived in her captivity, her eyes expressed her rage, hate and fear for humans who had killed her foster mother.

Kamala was brought up by tigress foster mother

Family Affection

"I knocked on every door and turned over every stone. But, it was only until I returned home that I found love waiting for me."

Labour pain is the most severe pain, and every year one hundred thousand women die at childbirth. In absence of strong socio-cultural counter influences, women would be more affectionate than men, to give and as well as to receive. Yet, in the patriarchy, the father was the sole owner of the children, because women were said to be cultivating fields only. The rebirth of DNA as $\frac{1}{2} + \frac{1}{2} = 1$ was unknown to the Gurus of Omniscient Gnosticism who out of their own ignorance, and out of vested interest had established the "Spermism" theory.

Affectionate Mother

All children need Affection for their physical and mental development. Those children who receive inadequate Affection can have stunted physical growth despite receiving sufficient food. Affection attachment with a trustworthy caregiver during the first a few years is essential for future mental health of a child. In all animals the affectionate behaviour evolves from parental nurturing nature associated with hormonal rewards

Affection to children can be displayed by acts such as, playing, making gifts, singing, and reading. Rearing of children gives one *Eudaimonic happiness*. Children learn to give Affection in time of growing up, and that shapes their brain too. Expressions of Affection are commonly evaluated positively, but it can be negative also if that poses an implied threat to one's well being. A declining empathy increases personality trait narcissism.

Affection gives Eudaimonic happiness

Mutual Affection arises from gratitude, appreciation for the received benefits and services. Communication of Affection is adaptive with respect to human viability and fertility. Men do not share to the same degree of hormonal benefits of Affection as that of women who have greater capacity to integrate pleasure by congruence of physical and emotional "Joy". Married women commonly cited reasons for engaging in extramarital affairs was their husbands had failed to fulfill their needs for Affection.

Affection which has its direct *Base* in Pathos and an indirect *Base* in Ethos, demands for social or parental care as a moral obligation. The other type of Affection arises when one becomes the caretaker of the old parents. Care of children and old parents needs patience, but that gives long lasting *Eudaimonic happiness*, and that gives us also a meaning of life.

Parent of Parent

Affectionless World

"I have heard that we are spirits having a human experience. Perhaps those of us who have no conscience are dark spirits having a human experience."

Affectionless Psychopathy act on their egoist impulse, with little regard for the consequences of their actions. It has been observed that the center for "Joy" in the brain of Affectionless Psychopathy is activated by seeing "Pain" of others. Therefore, they become rapists, murderers or both.

Affectionless World

Affectionless psychopathy is genetically coded. There are many kinds of genes behind Affectionless psychopathy. One of genetic variation which leads to Affectionless psychopathy is the YYX chromosome instead of YX, which occurs in one case in a thousand. The boys with YYX chromosomes are 8 cm taller than their brothers, and have 18% lower intelligence. The other variations of capricious genes analogous to that associated with YYX chromosomes are found. If these genes in YYX chromosomes and analogous capricious genes alone lead to Affectionless Psychopathy, then the society would be different.

Statistically, YYX carrier boys commit 20 times more grave crimes, than those with YX chromosome. If all YYX chromosome carrier boys become criminals then there would be 1,000 boys in a population with 2 million people. However, the vast majority of the grave crimes are committed by people due to some other variation of capricious genes. Due to good parenting and Altruism Affection, 95% of YYX chromosome carriers live a normal life.

Criminals in 'Affectionless Land' and 'Affection Land'

It can be predicted from back calculation with the assumption that Alucinatum can silence aggressiveness originated from genes in YYX chromosome and other capricious genes, in an Affectionless land with 2 million people, the number of notorious criminals would be to be about 50,000 men and 1,500 women, a total of 51,500.

In contrast, a country with the same size of population, but where Alucinatum Affection is not scarce, the number of notorious criminals is 2,500 men and 150 women. Alucinatum like Affection can influence the epi-genes which control over genes, and thus can activate or silence many genes.

The intake of Alucinatum like Affection hinders suicide. Many children, women, and men, who in one stage of their life did not have any resort for living further, refrained from committing suicide in the thought of the persons who had great Affection for them. In absence Alucinatum like Affection, there would remain no obstacle against their temptation for committing suicide.

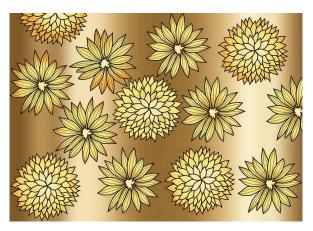

"O Peculiar World, Adieu to You, Adieu!"

Simulated Affection

"Is a flower of gold with embedded pieces of diamond real one? Yet, is not that one real too?"

Only a few people will say that they got married to pass their DNA to future generations, although irrespective of awareness, that is the primary cause of getting married. People say that they got married because they had Affection, "a cause, a cause, .. triste, triste était mon âme." But, most couples, a great part of Affection for each other arises out of simulation.

Flowers of Gold embedded with pieces of Diamond

Affection can be displayed to comply with social demands, used strategically for gaining personal favour or compliance. One conducts simulated Affection without realizing that, in order to get what she/he wants from a person. But, one has to be careful in Affection simulation because Affection is displayed differently in different cultures. A hug or kiss to show Affection is not recognised in many parts of the world, and that act from a stranger would cause distress for the recipient.

Strategic Affection simulation is common practice, about 90%, and a half that is manipulated, and often a quality of the people of upper class. Children can acquire the ability to convey expressions of simulated Affection by training.

In economic terms, Affection is considered as an emotional investment, but the return of such investment is not guaranteed by Logos, and that relies solely upon Ethos, and this is a risky investment.

[&]quot;Whenever you keep score in love, you lose."

Affection and Tears

"I remained alive at my mother as her tears!"

The death of a child is the greatest pain for parents. Selfish DNA plays a role in Affection. Parents are more affectionate to their biological children than to foster children. Blood relatives are more affectionate over the others.

Eve and Adam mourn for their son Abel

Eve and Adam had to bear that pain in their old age due to the death of their son Abel. The grief of the death of Abel kept Eve and Adam in tears for the rest of their life. Abel remained alive in them as their tears as long as they lived. Since then billions of parents have encountered similar fate like that of Eve and Adam. Every year, millions of children remain alive at their parents becoming tears after their untimely death.

"The memory of what has been and never more will be"

Separations and sufferings of an affectionate, old or young, take us to tears. Each and every memory of a dead affectionate creates pain. Separation of a beloved one for a short time makes us prepared for a longer separation. Finally, the separation forever keeps them alive in us as our tears.

Egos	Pathos	Ethos	
infatuation	affection	delution	adoration
egotism	altruism	gnosticism	
Sanguine	Melancholic	Phlegmatic	

[&]quot;We live and we die and anything else is just a delusion."

Delusion is the third Vital Alucinatum which is a tonic drug, a panacea to cure all sickness of the soul, a juvenile food which can revive a nearly dead soul by conscious self-deception. *Ethos*, the moral values is its Base and a *Phlegmatic* Temperament is the result of its intake.

In our body, there arise thousands of defects in every cell on every day which are repaired immediately by some miraculous DNA. So is also the work of the miraculous Alucinatum Delusion. In want of the Alucinatum Delusion, all our appetite for other Alucinata or the foods for the soul would have been lost.

Alucinatum Delusion preserves a conviction unchanged due to contradicting facts and reality. Delusion is needed for keeping a person normal in precarious and absurd situations, and it gives colours to black white pictures. Alucinatum Delusion makes one's life meaningful and coherent, dissolves the negative feelings and inferiority complex, and give instant explanation of something for help, heals a mental sore, and mends a torn soul. Although that process may appear as deceiving oneself consciously, it gives a person the ability to process, sort out, and accept information effectively with own effort and for own benefit, and at the same time keeps one engaged in potentially critical time. A decrease in the consumption of Alucinatum Delusion also decreases happiness in life as well as the sense of the meaning of life.

Once upon a time our dead became twinkling little stars in the sky, the Heaven or Walhalla for the dead. From above so high the dead could watch and take care of their beloved who were left behind on the Earth, and they could guide them in danger, need and lust.

Our dead became stars

The Dead as star gave guidance

Out of that conviction, our ancestors got tremendous strength and energy in their struggle for survival, and as well as they got peace in their mind. Alas! we their worthless descendents, have lost that resort in case of losing our persons of Affection. That belief has been shattered by the discovery that the stars were nothing but gigantic reactors of nuclear fusion.

Horoscope

But, all is not lost. Although our dead of Affection can no longer become stars in the sky, the conjunctions of the celestial bodies can decide our fate since our birth. Although nobody hears anymore oracles coming from the sky, still we believe that personal Celebrity, success with Passion and Money, and the luck of receiving Affection, are destined by the celestial bodies.

The knowledge in Astronomy has not changed our faith in Astrology due to Delusion. Although our dead no longer could become stars in the sky, still the conjunction of the stars and planets deludes us in our faith of horoscope. The belief that the Sun, the Moon, and the constellation of the planets and the stars make our horoscope to govern our fortune is strong as before or even stronger due to Delusion. Despite failures of the predictions by horoscope, we believe that our fate is governed by the celestial bodies who are no more Gods. Due to Delusion we can search for a black cat in a dark room which is not there. Even those who do not believe in horoscopes, the positions of the Sun and the Moon determine the time of performing daily rituals and prayers due to Delusion.

Our intake of Alucinatum Delusion still gives life our dead of Affection. We can see our dead of Affection in the sky without shadows behind them. We can hear our dead of Affection in the rustles of leaves of the trees. We can feel the touch of our dead of Affection in gentle breeze. We can get the smell of our dead of Affection from the fragrance of flowers. All that can come out of our illusion or hallucination. But Delusion with silent and yet stubborn resistance sweeps away all of our knowledge that disturbs the soul in those feelings that give us comfort and heal our hurts. Delusion can thus preserve all our beliefs that have been proved wrong or baseless. In the world of Utopia, nobody is dead as long as there is someone to recall the person not living anymore.

Delusion of Immortality

The intake of Delusion enables a cat to see her image as a lion. Delusion of immortality can give her also the spirit of a lion.

Delusion can keep us going like a blindfolded bull used in grinding mustard oil seeds. The creature cannot see, and he thinks that he is going all day long. If the bull could see, he would stop after a few rounds. In our long lifespan we move as a blindfolded bull, innumerable times swaying between hopes and despairs, one after another. New hope arises due to Delusion as the liver of Prometheus grows every night to be eaten up every day by vultures.

Blindfolded bull grinding mustard seeds

Aluciantum Paganism of sacrificing life in ritual of deities, endeavour for Utopism of ideal world, Dogmatism to live or die for a Dogma, and Patriotism to kill or to be killed for Fatherland, cannot be fed in one's soul seventy times without injecting beforehand the miracle appetizer Delusion.

When someone sinks in despair and anguish, the intake of Delusion helps him/her to find a Redeemer who can rescue a soul being tortured under the sword of Damocles. The intake of Delusion can relieve anxiety, puzzle, and stress. Delusion also provides an *ad hoc* explanation for events to console someone suffering from deep miseries.

Redeemer Delusion

Egos	Pathos	Ethos	Logos
infatuation	affection	delution	adoration
egotism	altruism	gnosticism	superegoism
Sanguine	Melancholic	Phlegmatic	Choleric

[&]quot;The founders of a republic or monarchy are entitled to praise."

Adoration is to worship someone or something, and it is the fourth *Vital* Alucinatum. The Base of Adoration is Logos which comprises principle, order, and regulation, essential in ranking for social position in animals and insects. The intake of Alucinatum Adoration gives a *Choleric* Temperament.

An Ant Colony is built upon Adoration of the Queen

In all social beings, there is always a hierarchy. The intake of Vital Alucinatum Adoration creates social positions in animals and insects who live in a group or clusters of groups. An ant colony is built upon the Adoration of the Queen. Her Adoration by worker and soldier ants arises from her *pheromone*, and ants have no need to build temples for Adoration of Deities.

Humans have built Monarchy, Republic and Temples from Adoration. Neither a Monarchy, nor a Republic can survive only upon swords or the barrel of guns. The longevity of a Monarchy or Republic depends upon the Adoration of the subjects or the citizens in association with the Adoration in the Temples.

Adoration of Things

"Imitation is the greatest form of flattery, but worship is the greatest form of adoration."

The intake of Alucinatum Adoration by humans is prehistoric. Our ancestors had seven celestial Gods for Adoration every week: the Sun on Sunday, the Moon on Monday, Thyr on Tuesday, Woden on Wednesday, Jupiter on Thursday, Venus on Friday, and Saturn on Saturday.

Pharaoh Akhenaton, Queen Neferti, and daughters Adore Sun

The Deities have changed, but the seven days for a week, Sunday to Saturday, has survived. Still some of the days and nights in the year are holy due to the position of the Moon and the Sun. The anger of the Sun creating Solar storms causes disasters on the Earth, but people no more sacrifice man or animal in Adoration of the Sun God.

Adoration of Golden Calf

Vital Alucinatum Adoration is an essential food and drug for the soul of the people in the society, all subjects of a Kingdom, and all citizens of a Republic. Ants have a motto in life: Eat, Survive, and Adore. Humans are also like ants. Humans have a motto: Eat, Survive, Reproduce, and Adore. Neither humans nor the ants can live without Alucinatum Adoration.

All over the world, there are millions of shrines, holy or sacred things and places, which are dedicated to deities, heroes, messiahs, prophets, martyrs, saints, daemons or similar figures for Adoration. People travel long ways to pay homage to holy places by performing some traditional rituals.

Adoration of Holy Stone

Holy sound of the hymns came either to "chosen people" through oracles, or was created by humans is the case of the others, for Adoration of the Deities, the Kings or the Queens. Adoration of mountains, rivers, stones, snakes, cows, monkeys, and gigantic trees arises out of superstitions, fear, joy or gratitude.

Holy Banyan tree

Adoration of the reproductive organs vagina and phallus arises out of the wonder of the birth of new life. Millions of people come in pilgrimage for Adoration of the menstruating Goddess in the temple of *Kamakhya* in India. Peculiarly, people have got Adoration for ascetics also who refrain from reproduction.

Pilgrimage to Kamakhya

Menstruating Goddess

Adoration for contemporary persons is common who are endowed with great Power or a lot of Money, or of great Celebrity. But, Adoration of the persons without a divinity is temporary. On the other hand, the Adoration of living or dead of divinity, the Sages, the Saints, the Messiahs, the Prophets, the Popes, and the *Ayatollahs*, and of the Holy Places and Holy Things, is everlasting.

"Son of the Immortal"

Adoration of Angels and Mephistopheles

"Prohibition didn't work in the garden of Eden. Adam ate the apple."

Adoration evolves from superiority. Adoration can be gained as much by goodness as by wickedness. When the angels in Heaven had got the command for Adoration of Adam because he was superior to them, all obeyed the order except *Lucifer*, the leader of the angels, out of Egotism, because he considered himself superior to Adam. Then *Lucifer* was cursed as *Devil*.

The superiority of humans to the Angels did not last long. Humans began to adore Angels. The best compliment a person is: "He/she is an Angel". The Adoration of Angels arises from their innocence and benevolence. The superiority of the Angels comes from the belief that Angels have Affection and no Infatuation. Humans cherish Affection, but that pious wish is often degraded due to the deleterious action of Infatuation. The Angels are kind, they do not harm. But, the benevolence of the Angels is not guaranteed, and they cannot do anything on their own will. Yet, the Adoration of the Angles survives from the intake of Alucinatum Delusion.

Mephistopheles

Mephistopheles was an incarnation of *Lucifer* alias Devil alias *Satan*. In Polytheistic Paganism its name is associated with God Saturn alias Saturnus alias God *Shoni* (India). The Adoration of the wicked was important to keep Him pleased and so that He will refrain from doing harm to His devotee.

The Adoration of the evil deities beside the good deities was common in the ancient. The Jupiter alias *Thor* was a benevolent deity, worshiped on Thursday. Saturn was a baneful deity, worshiped on Saturday. Both the benevolent and baneful deities have many incarnations all over the world.

Angel and Mephistopheles belong to two qualitatively different categories. In phenomenography, the categories do not describe an individual, an individual can show up in qualitatively different categories. We see some people Adore the Angels, some others adore Mephistopheles, and some others adore the both. Individual Souls can show up in both categories at the same time as the Schrodinger's Cat which can be alive or dead at the same time.

Piper of Hamelin as an Angel and as a Mephistopheles

From lenticular view of observations, a Bellwether can be both an Angel and a Mephistopheles like the Piper of Hamelin. The Piper had appeared as an Angel who freed the city of Hamelin from the invader rats by playing a melody in his pipe which led the rats to the river to be drowned. Afterwards, when he became angry, he played another melody that made all children of the city insane to follow after him towards a mountain where they disappeared forever.

The Pipers who are experts in playing the Holy *Mantras* of Supernal Alucinatum Paganism, Utopism, Dogmatism, and Patriotism, get Adoration of the people, and they can become Bellwethers. They appear as Angels and disappear forever as Mephistopheles, taking millions of enthusiastic people with them when "Revolution devours its own children".

Part II

PRIMAL ALUCINATUM

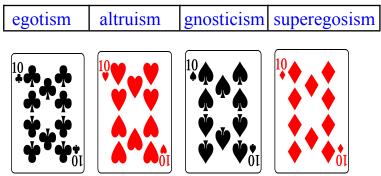

Primal 2A Egotism

Primal 2B Altruism

Primal 2C Gnosticism

Primal 2D Superegoism

Primal Alucinatum consists of Alucinatum Egotism, Altruism, Gnosticism, and Superegoism, which can be associated with these four playing cards respectively.

Primal Alucinatum items are essential for the soul out of Social perspective, mainly like that of the proteins for the physical body.

Metaphorically, the four primal Alucinatum items Egotism, Altruism, Gnosticism, and Superegoism, are related to the four Bases: egos, pathos, ethos, and lagos respectively.

The action of these four Alucinatum items can be related to Temperaments of the Soul: *sanguine, melancholic, phlegmatic* and *choleric* respectively.

Alucinatum

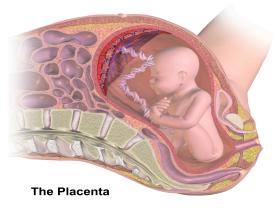

Egos	Pathos	Ethos	Logos
infatuation	affection	delution	adoration
egotism	altruism	gnosticism	superegoism
paganism			
Sanguine	Melancholic	Phlegmatic	Choleric

I said, "Good folk, mere noise repels. But, Give me your sun from yonder skies!" They had answered, "And afterward, what else?"

Egotism, the first Primal Alucinatum for the soul. Egotism has its base in Egos or "I". Egotism gives terrific interest in one's self, and it is absolutely essential to efficient living. Egotism grants one Sanguine Temperament.

Egotism awards a soul an identity. A foetus preserves its identity along with its rapid physical growth. A baby in the womb may have a blood group which is incompatible to that of the mother, and a drop of an incompatible blood can be fatal. The Placenta takes care of all such subtle complexities for each moment during its longevity of nine months. Perhaps, at sometime the Inherent Egotism, needed for the emancipation, emerges in a baby.

Emancipation and Egotism

Alucinatum Naive Egotism

"All others in the whole world think for themselves. It is only I who thinks for Me!"

A loud cry of a neonatal after coming out from the womb is the proclamation of emancipation along with demands out of Inherent Egotism which enhances the capacity and self-reliance of a baby. When a Neonatal gets Affection, there arises majestic Naive Egotism, often at the cost of the others. Babies start to demand more and more. The world of a child is *Egocentric* up to five years. They believe that the Moon and the Sun follow after him/her everywhere.

Look! Look! It follows me!

Children have to give up Naive Egotism gradually to increase their ability for social adjustment and wellbeing. Under an optimal development, children learn to reconcile, and to have a more realistic view of their own place in the world. On the contrary, a less adequate adjustment increases aggressiveness, and defensive Egotism. Naive Egotism of a child grows in two trajectories: individual or cultural. A positive trajectory which diminishes Naive Egotism can be seen in cultural perspectives as an increase of infantilism.

Then a movement takes place from egocentric to social in case of developing individuals. In the process self-reliance, Inherent Egotism which is common in animals and birds, overrides the majestic Naive Egotism. Children start to talk about themselves in a self-promoting fashion, become arrogant and boastful of their own importance. They may refuse to obey others, and they often try to keep themselves profoundly in self-promoting winner position. They can take any criticism about them as an insult and burst out in narcissistic rage.

Alucinatum Inherent Egotism

"I have a huge ego and a huge inferiority complex at the same time."

Cockfight To Be or Not To Be

Two cocks become instantaneously indulged in aggressive fight against each other from Alucinatum Inherent Egotism. Such ridiculous cockfights without reasons are observed among many grown up children. Inherent Egotism leads one to suffer from superiority or inferiority complex. Anybody may have such aberration due to intake of Inherent Egotism, and along with Alucinatum Delusion it is dangerous for others due to cumulative effects.

Alucinatum Inherent Egotism in combination with Passion Infatuation is very dangerous. It caused a tragedy of siblicide in the family of Eve and Adam. Cain, the elder son of Eve and Adam had killed his younger brother Abel out of Inherent Egotism in combination with Passion Infatuation. The rivalry of the brothers was over their sister Acklima who was more beautiful than the other sister.

Another Biblical story of sibling rivalry is the tragicomedy of Esau and Jacob who were sons of Rebecca and Prophet Isaac. Jacob cunningly cheated their old father and deprived his elder brother Esau from his right of inheritance. The history is somewhat similar to that of their uncle Ismail who was exiled to Mecca. Jacob also got both the daughters of their maternal uncle Laban. Esau would kill his cheat brother out of Inherent Egotism, but he reconciled with him instead of slaying due to Ethos Altruism: "Blood is heavier than water".

Cain killed his innocent brother Abel

Esau reconciled with cheat brother Jacob

Alucinatum Inherent Egotism engages humans, animals, and birds to strengthen their own position in the world where everybody has to struggle for existence and reproduction. Under what conjunction of the stars and the planets were Cain, Abel, Esau and Jacob born can perhaps be resolved by Gnostic Gurus who assert "I know that which you do not know". But, Aluciantum Delusion can make one to forgive "not seven times, but seventy-seven times".

Cain, Abel, Esau and Jacob are biblical persons who are typical examples of addicts and victims of Inherent Egotism. Aluciantum Inherent Egotism made Cain a murderer and Jacob a cheat. Abel and Esau were victims. Cain was a stupid and Jacob was a shrewd politician. While Cain has been condemned as a beast in the tragedy of siblicide, the cheat Jacob got Adoration, the crown, and women in that tragicomedy of sibling rivalry.

There are many pros and cons of the intake of Inherent Egotism. Alucinatum Inherent Egotism endows youths with romantic ideas, can activate them to self-creating and self-authorizing in broader social dimensions, and envisage a kind of socialized self-loving or Narcissism. Inherent Egotism gives people the courage and energy to go through fearful and deep forests, climb over difficult mountains and take voyage over dangerous oceans. Alucinatum Inherent Egotism has inspired people to achieve control over others and things, and to achieve fame, success, privileges, and honour in life, and at the end to own at least a little Mausoleum after death.

Alucinatum Pagan Egotism

"We are addicted to our egotism, our likes and dislikes and prejudices, and depend upon them for our own sense of identity."

The Mausoleum of Chinese Emperor Qin Shi Huang is a city of 6.3 km in length, 2.5 km wide and 76 meter tall. It was built by 700,000 men in 38 years (208 BCE). The tomb was filled with artifacts and treasures. One hundred rivers were simulated by the use of mercury. One hundred Emperor's concubines had to go with him. When the funeral ceremony was over, the passage to come out was blocked, tapping all workers and craftsmen. None there could escape. Historically, many Emperors world wide, out of Alucinatum Pagan Egotism, took with them Riches and thousands of lives with them at their death.

Mausoleum of Qin Shi Huang

Out of Alucinatum Pagan Egotism, King Agamemnon made a ritual sacrifice of his own daughter *Ifigenia* for satisfying Goddess Artemis in the Greek war against Troy, in spite of fierce protest of her mother Queen Clytemnestra.

Agamemnon Sacrificed his daughter Iphigenia

Sacrifice of human or animal to please Deities has been practised all over the world out of Pagan Egotism. People observing brutal offers became delighted from the Delusion that the soul of the offer would directly reach Heaven. In some parts of the world, widowed women were buried or burnt alive in a ritual ceremony along with their deceased husband. Loud Holy sound of hymns of the priests accompanied with music submerged the cries of the victims. People who watched the offer got vigour and enthusiasm due to Pagan Egotism.

Yaksma guards hidden Riches

A miser old richman in India who had no heir, and addicted to Pagan Egotism, wanted to have a ghost to guard his Riches. The ghost who guards Riches was called *Yaksma*. The man constructed a brick-built room underground for that purpose where he put his Riches. Then the richman kidnaped a boy whom he locked up in that room, and then sealed the door. When the cry of the boy was heard no more after a few days, the richman became confirmed out of Pagan Egotism and Delusion that the soul of the boy had become a ghost, a *Yaksma* who would fiercely guard the Riches for ever against any intruder.

Ritual sacrifice of humans is a grievous crime, but out of Pagan Egotism, it is sporadically practised by contractors or entrepreneurs in some countries. Some people addicted to Pagan Egotism in addition to Delusion will rather sacrifice animals for satisfying Deities. The sacrifice of animals or birds comes with Pagan Egotism in combination with Delusion that a sacrifice of another life would protect one's own life or that of an affectionate.

Alucinatum Omnipotent Egotism

"The ones who are insane enough to think that they can rule the world are always the ones who do."

Alucinatum Omnipotent Egotism grants tremendous energy, creating endless greed for all benefits in this World, as well as in the Next World. Omnipotent Egotism drives one to work hard to fulfill their desire for driving fancy car, wearing nice clothes, living happily in nice apartments together with spouse and children, and to dominate over others in the family, to dominate over all people of the society, the country, or the world. Thus Alucinatum Omnipotent Egotism can kill a person while trying to satisfy their own Egos by all means.

Omnipotent Egotism gives people aspiration or desire for love and offspring, superiority and power, wealth, as well as to be praised and rewarded even after death. When Omnipotent Egotism comes in a person after becoming rich and famous, the person is fed by Infatuation with Money and Celebrity.

Empires were established by people addicted to Omnipotent Egotism which boosted up the spirit of the nation. Omnipotent Egotism can be fulfilled by exploiting the sympathy, irrationality or ignorance of others, as well as by utilizing coercive force and/or by fraud. Innumerable terrible things happened from addition to Alucinatum Omnipotent Egotism in combination with some other Alucinatum which boost up the Egos at the cost of Pathos and Ethos. Omnipotent Egotism in combination with Passion Infatuation was the cause of "Battle for women". Romans invaded neighbouring countries to seize women.

Battle for Sabine women

Alucinatum Omnipotent Egotism boosted up the spirit of the men of Prophet Josiah by introduction of a deeper circumcision, and injecting a deeper Delusion of binding with Jehovah. His priests could demolish the walls of the cities of the enemies by blowing Holy sound from their bugles. Delusion of Jehovah's command drove the men of Josiah to kill all men, women, and children, and even the domestic animals of the neighbouring countries.

Holy sound demolished city walls

Addiction to Omnipotent Egotism leads a person to act in a way to gain values in an amount excessively greater than that which he or she gives to others, and can grow out of desire for revenge. Addiction to Omnipotent Egotism gave kings aspiration in the establishment of big and bigger empires. Addiction of Bellwethers to Omnipotent Egotism caused war lasting hundreds of years.

Delusion of the Oracle "Thy seed shall be as the dust of the earth, and thou shalt spread abroad to the west, and to the east, and to the north, and to the south; and in thee and in thy seed shall all the families of the earth be blessed" in combination with Omnipotent Egotism gave stronger nations legitimacy to annihilate the natives of the occupied land in order to spread their own seeds.

Addiction to Alucinatum Omnipotent Egotism has made an unprecedented concentration of Money in the hands of only a few Tycoons who now own more than one half the wealth of the Earth, and who yet try to become richer. Women have less desire for Omnipotent Egotism, and they own only one percent of the wealth of the world. A gross addiction to Omnipotent Egotism can be the reason for the destruction of the Homo sapiens on the Earth in the year 2060 C.E, as Isaac Newton has calculated for the date of Resurrection.

Alucinatum

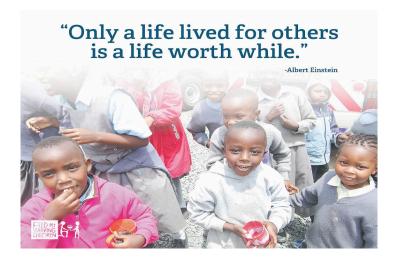

Egos	Pathos	Ethos	Logos
infatuation	affection	delution	adoration
egotism	altruism	gnosticism	superegoism
paganism	utopism		
Sanguine	Melancholic	Phlegmatic	Choleric

Alucinatum Altruism

"Animals have genes for altruism, and those genes have been selected in evolution because of the advantage they confer for the continuing survival of the species."

Altruism is to do welfare for others, a Primal Alucinatum for the soul which has its primary Base Pathos. Altruism can be regarded as Affection of second order. Animals have Affection and some amount of Altruism. But, Altruism in humans can be wider and superior to that of animals. Altruism is the opposite of Egotism. Consumers of Alucinatum Altruism suffer for their inability which leads them to Temperament Melancholy. In combination with Delusion, it may lead one to aspire for Utopism.

Alucinatum Empathetic Altruism

"Children have a great capacity for Empathy and Altruism."

When children get milk teeth, they begin to test that new tool everywhere out of their Naive Egotism. Teeth and Nails are the most primitive tools for animals for attack and defence. But, in teeth and nails, humans are much inferior to that of cats.

Eudaimonic Rearing

Alucinatum Altruism comes in children during the early period of life, and that is reflected as their attraction to the acts of charity and kindness. Altruism has made the Earth worth living, and important in case human because they have got much more powerful weapons than the teeth and the nails, and in want of Affection and Altruism, they can destroy the world.

Men show great Altruism in the early stages of a romantic relationship, or in the presence of an attractive woman. That Altruism is Empathetic Altruism. A woman looking for a long-term partner thinks that a man with Altruism will share his resources with her, while a heroic performance of a man will appeal to her for a short-term partnership out of attraction for more lively genes.

Although both men and women will say that Altruism is the most preferable trait in partner choice, men place less value on this than women, and women may not show more Altruism in presence of an attractive man. Vis-a-vis, men who exhibit Empathetic Altruism for short-term relationships, avoid women who are well known for their Altruism because of the fear of less success.

Alucinatum Ethos Altruism

"Altruism raises your mood because it raises your self-esteem, which increases happiness."

Ethos Altruism

The Base Ethos is related to both Alucinatum Affection and Altruism because individuals are morally obliged to help others in case of need. "The Universal principle of human altruism is the urge to help others who are in danger."

Alucinatum Ethos Altruism gives a soul an aptitude to sacrifice something for someone other than the self, such as sacrificing time, energy or possessions, without expectation for benefits, or compensation, probability of survival or reproduction, either direct or indirect, receiving recognition for the act. The concept of "others" varies among region, culture, and religion.

Ethos Altruism is a virtue in many cultures and a core aspect of many religious traditions. Most religions promote altruism as an important moral value. Sometimes Ethos Altruism is associated with vested interest such as donation to temples or to the priests. Religious Delusion with Ethos Altruism promotes covetousness with the temptation of getting more in return.

Alucinatum Ethos Altruism as a drug can lower depression, anxiety, and somatization problems, improve mental and physical health, and longevity as well. The relation between altruistic behavior and happiness is bidirectional. Generosity increases linearly from Melancholic to Phlegmatic Temperament. But, the feeling of being overwhelmed from Ethos Altruism out of the endless needs of others may deteriorate one's health and happiness.

Alucinatum Egos Altruism

"Altruism is innate, but not instinctual. Everybody is wired for it, but a switch to be flipped."

Primal Alucinatum Egotism helps children to achieve self-reliance, and which in turn gives them the capacity for Altruism. A combination of Vital Alucinata Infatuation and Affection with Primal Alucinatum Egotism and Altruism, makes a peculiar curry of Egos Altruism. Alucinatum Egos Altruism comes from how people view the world. The soul behaves differently in Egos Altruism than in case of Pathos Altruism or Ethos Altruism. The act of Altruism increases the fitness of others while decreasing the fitness of the actor. To compensate for the loss, Egos Altruism demands for reward in this world or in the next world.

Egos Altruism is the act of Altruism to get benefits from performed Altruism, directly or indirectly. People compete over getting a reputation for Altruism. The publicity of giving donations or holding a feast to feed the poor demonstrates one's Egos Altruism. Expert hunters generously sharing the meat have higher reproductive success and more adulterous relations even if they do not receive more of the meat than others. People tend to have less Altruism if they see non-cooperativeness by others, and less cooperative if they perceive that the intensity of Altruism in the population is low.

Creation of in-group greatly increases Egos Altruism towards the in-group, if an out-group is considered as the enemy as that had emerged all over in the American continent a few hundreds of years ago.

American Indian child and his killed mother

Egos Altruism towards the in-group of European settlers against the native American Indians was strong in the conflict. The "Self-Defense" movement of European in-group of different nationalities and languages in the war against the American Indians came out of Egos Altruism towards in-group. It was a call to unite all the Proletariats from West Europe who had crossed the Atlantic in search of fortune, and who had Nothing to lose as European Serfs, but to become Landlords by conquering the whole New World of American Indians.

The annihilation of American Indians by the West European in-group occurred not only by bullets and bayonets, but also by Egos Altruism, for example, the donation blankets contaminated with smallpox virus. Such kind of heinous Egos Altruism of West European in-groups in America, Africa, and Australia was a wolf in sheep's clothing.

A Wolf in Sheep's Clothing

Animal slaughtered to feed poor

Occasionally a generous rich person arranges feast for feeding poor people by slaughtering animals. Man gets fame as an Altruist which can be seen through a lenticular observations as combination of Egos Altruism and Pagan Egotism, also that is a wolf in sheep's clothing.

Alucinatum Egos Altruism unconsciously increases towards close kin than to distant kin and non-kins, more for servants, friends, allies, and similar social in-groups. Helping such group members eventually benefit the altruist.

All such kinds of Egos Altruism comes from Egotism. This applies to a wide range of human behaviours such as emergency aid, help to coalition partners, tipping, courtship gifts, and charity. The tendency towards Egos Altruism implies that people feel obligated to respond if someone had helped them.

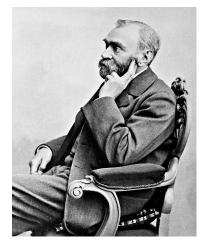

Egos Altruism can be flipped unexpectedly as that of the Nobel Prize. Alfred Nobel became one of the richest men in the world from his business in dynamite and cannons. His brother Ludvig Nobel was two years older than him. One day in 1888, when Alfred Nobel read his own obituary in bold letters in a daily: **The merchant of death is dead**, he could not believe his own eyes.

The reporter of the newspaper was mistaken by the surname at the death of Alfred's brother Ludvig Nobel. Alfred realized how he would be remembered by the world after his death. He got time to think. Alfred Nobel was Atheist. He had no Infatuation of Eden to reserve a place there by donation to churches as the widows did either out of Infatuation of Eden or to escape from climbing the stake for witches. Thus the ownership of one half of the wealth of Sweden went to the churches under the Pope, which had compelled King Gustav Vasa to become a Lutheran and nationalise all churches.

Out of Alucinatum Egos Altruism, Alfred Nobel decided to donate 94% of his vast wealth in the welfare of mankind. He died in 1896, eight years after he had read his premature obituary. Egos Altruism of Alfred Nobel has made him remembered by the world as a great Philanthropist. In his own language of his testament for the prizes:

"The first three for eminence in physical science, in chemistry, and in medical science or physiology; the fourth is for literary work in an ideal direction, and the fifth prize is to be given to the person or society that renders the greatest service to the cause of international fraternity, in the suppression or reduction of standing armies, or in establishment or furtherance of peace congresses."

Nobel Prize in physics, chemistry, physiology or medicine, literature, and peace

Alucinatum Credulous Altruism

"I hate Indians. They are beastly people with a beastly religion."

Children are to be taught to be cautious about Credulous Altruism. A well known story of Credulous Altruism is that of a tree who donated a woodcutter to one of its branches. The man was in need of a handle for his axe. But, he could not reach any branch of the tree. So, he begged the tree for a branch. The tree gave him a branch out of Credulous Altruism. The man made a handle for the axe with that branch and then he began to cut the tree.

Fig. 199.—Discovery of America, 12th of May, 1492.—Columbus erects the Cross and baptizes the Isle of Guanahani (now Cat Island, one of the Bahamas) by the Christian Name of St. Salvador.— From a Stamp engraved on Copper by Th. de Bry, in the Collection of "Grands Voyages," in folio. 1599.

Credulous Altruism

Everyday people become victims of cheats out of Credulous Altruism because it is difficult to foresee that. People are Altruist in the hope of reciprocity. But, that reciprocity can be different in case of racists. Ethnologists have learnt from cannibals that they do not think themselves as man-eaters, and such two footed creatures they eat were actually one kind of animal as monkeys. This finding of Ethnologist suggests that Cannibalism is the mother of Racism.

Columbus and his men, half dead from starvation, landed in America where they were received with warmth and hospitality. But, the guests addicted to Jingo Patriotism, saw that as Credulous Altruism. Columbus and his men got enough food for the journey back. Enthusiastically Columbus said to the King: "Your Majesty, the Indians there are credulous who can be our good slaves."

[&]quot;The world would not be so funny if there were no idiots"

Alucinatum

Egos	Pathos	Ethos	Logos
infatuation	affection	delution	adoration
egotism	altruism	gnosticism	superegoism
paganism	utopism	dogmatism	
Sanguine	Melancholic	Phlegmatic	Choleric

[&]quot;When a person supposes that he knows, and does not know; this appears to be the great source of all the errors of the intellect."

The third Primal Alucinatum or food for the soul is **Gnosticism**, derived from the Greek word "knowledge". Gnosticism has its base Ethos, and Knowledge gives Temperament Phlegmatism. There are two types of Gnosticism:

Omniscient Gnosticism and Humane Gnosticism.

Omniscient Gnosticism comes from Deductive epistemology, explaining things out of the perceptions obtained by the soul. The *Omniscient Gnostics* are sure and certain about the correctness of their conceptions, they know all of everything, and they claim some kind of supernatural power behind them.

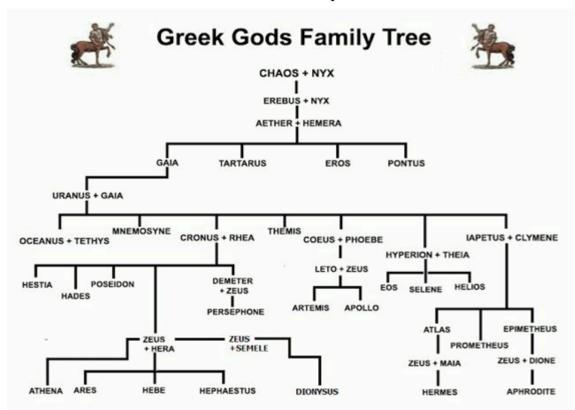

Humane Gnosticism on the other hand relies on Inductive epistemology for explanation of the observations or out of empiricism. The *Humane Gnostics* can never be hundred percent sure, and they can tell only of the probability of being correct.

Antagonism within Omniscient Gnosticism arises from differences as that of different ways of breaking eggs. A gross intake of Aluciantum Egotism, in combination with some other Alucinatum such as Dogmatism, can a little difference cause a Lilliputian war with the spirit of To Be or Not To Be.

Omniscient Gnosticism

"I know that which ye know not."

Hellenic Omniscient Gnosticism, which has its origin in Europe, is interesting for understanding the emergence of Gnosticism at the beginning of human civilisation. According to Hellenic Genesis, the mother Earth is Goddess Gaia, who is the grand granddaughter of Chaos and Nyx (Night). The family tree of Greek Gods and Goddesses is shown in the picture below.

Mother Earth Gaia with Her Children by Uranus

Gaia gave birth to Uranus (Sky) who became her husband. Zeus, the grandson of Gaia and Uranus, became the King of Gods by deposing his father Cronus. The Roman name of Zeus is Jupiter and of Cronus is Saturn respectively. Zeus is identical to *Thor* in Scandinavia, and *Indra* in India, who usually ride upon the cloud. The Hellenic Gods and Goddesses had stopped breeding after eight generations, and soon their rule was over.

Prometheus, another grandson of Gaia, created humans by moulding water and earth. Athena, a daughter of Zeus, gave Humans the soul.

The life of humans was miserable without "Fire". So, Prometheus stole "Fire" from Heaven and gave it to humans. To undo the benefit, Zeus created a very beautiful woman *Pandora*. Then he packed all the mischief in a box which he gave to her as a present. When Pandora had opened that box to examine, all disasters came out from which humans began to suffer.

According to Hellenic Omniscient Gnosticism, at death, the Human body returns to mother Earth Gaia from whom it was created. The Soul, given in Human by Goddess Athena, is taken back to Heaven by Zeus.

Hellenic Genesis was replaced by Semitic Omniscient Gnosticism which is more Patriarchal. Whereas in Hellenic Gnosticism of Genesis, Gaia gave birth to her husband Uranus, in Semitic Gnosticism, the first woman Eve was cloned from a bone of her husband Adam. Both Hellenic and Semitic Omniscient Gnosticism agree that humans were made from clay.

Eve and Adam taste the Fruit of Knowledge

In Semitic Omniscient Gnosticism, Eve and Adam tasted the forbidden fruit of knowledge and for that sin they were banished to Earth from paradise. The price for the achieved knowledge was high. Adam had to work hard for food, and Eve was to become a craver, and bear the pain of childbirth. But, on Earth they achieved emancipation and got Affection for each other and for children.

A Ride to Heaven

In both Hellenic and Semitic Omniscient Gnosticism, the soul is an immortal entity integrated in the physical body which is not subjected to recycling as that in Indian Omniscient Gnosticism. There are many more interesting Omniscient Gnosticism in the world. Immortal souls may be either resurrected, or recycled. The virtuous soul goes to Heaven and the sinner goes to Hell. In Heaven man will eat delicious food, and can have sex too, but cannot reproduce anymore.

Antagonistic schools of Omniscient Gnosticism

Alucinatum Humane Gnosticism

"An unexamined life is not worth living."

Hellenic Omniscient Gnosticism prevailed in Athens despite its inconsistency and absurdity due to the action of Delusion. No Omniscient Gnosticism can tolerate indifference which can undermine its Dogmatism. Socrates did not pay the due homage to the Hellenic Gods and Goddesses, and for that fault he was charged for the offence of "Impiety", imprisoned, and condemned to death by a Jury of 531 men of Athens.

Socrates to die for *Impiety* by drinking Hemlock

Socrates did not directly challenge the prevailing Omniscient Gnosticism, but he emphasised and encouraged his pupils to pursue after knowledge, because according to him all people do bad things due to lack of knowledge. "Nobody willingly does thing which he/she thinks bad", taught he. "An unexamined life is not worth living", he added. But, eating the fruit of knowledge is a crime not only in Heaven, but that can be a crime on the Earth too. Contemporary peers of Socrates in India who had disagreed with Indian Omniscient Gnosticism of the virtue of human sacrifice were condemned as Demon *Charvaks*.

A clash between the supporters of Omniscient Gnosticism and the supporters of Humane Gnosticism becomes inevitable when the reliability and validity of the prevailing Omniscient Gnosticism is doubted or challenged. The opponents of Omniscient Gnosticism are demonised, fined, flogged, imprisoned, tortured, murdered, poisoned or burnt to death, hanged, crucified, or buried alive.

Socrates is known from the writings of his renowned pupil Plato. The Humane Gnosticism of "I know that I do not know" survived in Europe for a while after Plato. When the dark Middle Age swept all over Europe, a scholar man was accused as Heretic and a wise woman was demonised as witch. In those hard days, Humane Gnosticism survived by migration far away in the centers of learning of the Saracens.

Then, again after a few hundreds of years, when those enlightenment centers of the Saracens were completely destroyed by the Mongol invader Halaku Khan in the thirteenth century, the Humane Gnosticism fled back in Europe during the period of Renaissance.

Astronomer Bruno and Scientist Servetus were burnt to death for Heresy

Giordano Bruno and Michael Servetus, who at the beginning of Renaissance cherished for Humane Gnosticism of "I know I do not know" and wanted to examine the established information of Omniscient Gnosticism "I know which ye know not", were burnt at the stake for "Impiety" due to their scepticism about the Incarnation of Jesus

Never can Humane Gnosticism substitute Omniscient Gnosticism, because a Humane Gnostic asserts "I know that I do not know" while an Omniscient Gnostic asserts "I know that which ye know not". Delusion is the strength of Omniscient Gnosticism. The doctrine of Omniscient Gnosticism leads one to Dogmatism while that of Humane Gnosticism leads one to Utopism.

Qualitative differences in Gnosticism

"The categories do not describe individuals. One individual can appear in many categories."

Dichotomy from similarity and difference in four fundamental questions: Immortal, Recycling, Creator, and Incarnation along gives a colourful picture of the soul. There are seven qualitatively different conceptions about the soul which divides the users of Alucinatum Gnosticism.

All schools of Omniscient Gnosticism assert that soul is immortal, integrated to a physical body while Humane Gnosticism assumes that soul is temporal, assimilated in a physical body. Humane Gnosticism is divided in two sections out of the dichotomy of Creator.

A qualitative difference appears in Omniscient Gnosticism from the dichotomy whether soul recycles or resurrected, separating the schools to Monotheism and Panentheism. The dichotomy in the schools of Pantheism or Panentheism, divides them in two sections from the conceptions of Incarnation and Creator.

Essence of the Soul: *Immortal, Recycling, Creator, Incarnation*

	Immortal	Recycling	Creator	Incarnation
	Yes/No	Yes/No	Yes/No	Yes/No
Pantheism	1	1	1	1
Pantheism2	1	1	0	0
Monotheism	1	0	1	0
Panentheism	1	0	1	1
Panentheism2	1	1	1	0
Humanenism	0 (Temporal)	0	1	0
Humanenism2	0 (Temporal)	0	0	0

Seven Qualitatively different conceptions of the Soul

Alucinatum

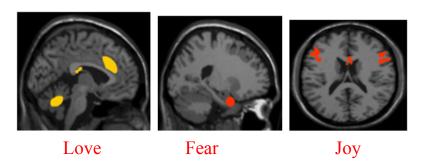

Egos	Pathos	Ethos	Logos
infatuation	affection	delution	adoration
egotism	altruism	gnosticism	superegoism
paganism	utopism	dogmatism	patriotism
Sanguine	Melancholic	Phlegmatic	Choleric

[&]quot;The poor ego has a still harder time of it; it has to serve three harsh masters, and it has to do its best to reconcile the claims and demands of all three."

Superegoism is the fourth Primal Alucinatum to feed the soul. Humans have got many primitive drives, fantasies and feelings whose seat in Id of Ego. The Base of Superegoism is Lagos which sets rules for the fulfillment of these drives, fantasies and feelings, to keep Ego under "Fear" of such acts which is harmful to individuals, family and the society. Superegoism has a relation to choleric temperament.

Thus, Superegoism is a drug to be fed to the soul of an individual in order to refrain a person from actions which gives one a short time hedonic pleasure at the cost of injuries to the others. Yet, that occurs sporadically when the "Joy" seeking Id can shut the centre of "Fear", and that can cause disastrous consequences.

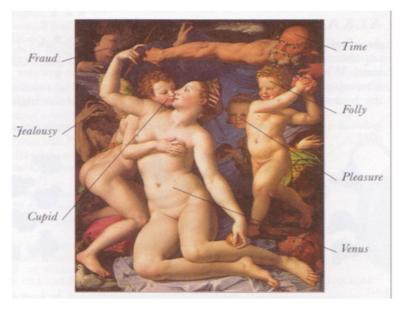

Superegoism for Family

"Superego, in censoring the unconscious and implanting conscience, is also the censor of censor."

Monogamy originated among species whose young survived best when raised by a bonded pair. A nuclear family consists of a Mother, a Father, daughters and sons. For the welfare of the family, Logos regulates the drives of the Id in Egos. The intake of Superegoism enables one to act in an appropriate manner. Id wants instant self-gratification which can damage a family, and that must be suppressed or sublimated. A triangular family drama from Passion Infatuation such as brother-sister-brother, father-mother-son, or daughter-father-mother, has to be hindered by adequate intake of Superegoim.

An allegory of the conflict of the drive of Id and the action of Superegoism is depicted in a picture below from Greek mythology. Venus, Goddess of Love, seduces her son Cupid, God of Passion, with a kiss of false love while she tries to steal the arrow from his quiver. Fraud, Jealousy and Pleasure represent primitive drives of Id. Disclosure of the Deceit by Time, Serpent hiding in Honey of Pleasure, and Giggle of Folly with roses for Incest, are warning from Superegoism about the danger of the transgression.

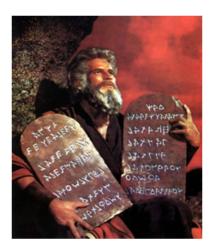

Transgression of Venus

Superegoism for Society

"Virtue is more to be feared than vice, because its excesses are not subject to the regulation of conscience."

Out of Omniscient Gnosticism, Prophet Moses came with Ten Commands which became a paradigm of Logos. The aim of the Oracle Ten Commands was to introduce the practice of Right Livelihood and to establish a healthy society. Capital punishment of individuals became a routine who were found guilty or were suspected for violation of Logos such as incest or infidelity.

However, there would be no Moses if his doctrine was in practice at the time of his birth. Jochebed, the mother of Moses, was the paternal aunt of his father Amram. According to his own Logos, they would been stoned to death, and Moses would be a "*Child of Sin*" out of the incest of an Aunt-Nephew pair.

Ten Commands of Superegoism

Still today, many patriarchal societies practice the doctrine of stoning to death. When the clothes of the bed used on wedding night could not prove the virginity of the bride according to the verdict of elders, the bride was to be stoned to death in front of the house of her parents. Tens of thousands of girls in the Middle-East and North Africa have been stoned to death.

Many other punishments such as flogging, cutting off limbs, or beheading was practiced for many other kinds of break of Lagos. Feeding of Superegoism was not a guarantee against breaking the fences of others.

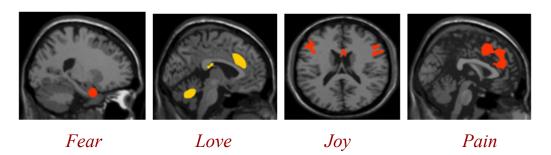

Naturally, man first secures his own possessions by fences, and then tries to break the fences of others. A forbidden passion has greater attraction. The aim of Superegoism is to create the sense of right or wrong, and to punish any misbehaviour with feelings of guilt, to help one to become fit in the society by acting in accordance with Lagos.

Passion Infatuation can lead to overindulgence, sloth, greed, and a whole host of many deadly sins. Superegoism aims for perfection by creating individual's ego ideals, spiritual goals, and conscience, and criticizes or prohibits Id's drives, fantasies, feelings, and actions.

Right livelihood is formatted by Alucinatum Superegoism. There are four aspects in right livelihood upon which the basic characteristics of Superegoism can depend, those are: Collective Materialism, Collective Idealism, Individual Materialism, and Individual Idealism. These four aspects are always present in a society but change positions in ranks in generations and in individuals.

The action of Superegoism cannot always hinder the drive of Id. The beauty of young Bathsheba costed the life of Uriah due to vulgar Passion Infatuation of old David. Abraham, in fear of his own life, had said to Pharaoh of Egypt and to King Abimelech that Sarah was his sister. Both Pharaoh and King Abimelech repented when they felt guilty from Superegoism.

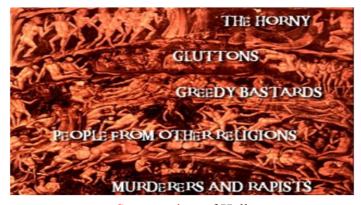

Pharaoh compensated Abraham with money and the present of the young girl Hagira. King Abimelech compensated Abraham by awarding Abraham a vast land. Abraham did not repent from Superegoism because a man can tell a lie to save his own life, in war and to his wives. In addition, Sarah was Abraham's half-sister also. Abraham told the truth, but not the whole truth. After Sarah's death, Abraham was happy to get six more sons with much younger Keturah.

The intake of Alucinatum Superegoism can create "Fear" and "Pain" in Egos amidst "Joy" and "Love", when someone violates Lagos. People do not go out nowadays in search of a concealed mother-son incest at the outbreak of epidemic plague and leprosy. But, sexual morality is a prerequisite for good physical and mental health. A mentally sound person cannot drink water from a cup which has marks of many lips. Laissez-faire trade of sex has been well known to be the cause of many sexually transmitted epidemics like Syphilis, Gonorre, AIDS, and many others.

A woman seeks a male of high quality in order to produce offspring that will survive better. But, males are driven by Passion, and loose in the selection of partners. Polygamous females choose the strongest male to mate with. Only five percent of mammals are monogamous. In monogamy, the choice of partner is crucial from the "Theory of Games". But, biological and socio-economic differences lead to infidelity which to be checked by Superegoism.

There are two kinds of infidelity: emotional and physical which differs in seriousness for a partner. In a woman, an emotional relation of her husband with another woman is more serious than his physical one. In a man, a physical affair of his wife with another man is more disastrous than her affair with a woman. In the case of a woman, her husband's emotional affair with a man is worse than his affair with another woman. The view is similar to that of society which is more lenient to affairs between two women.

Superegoism of Hell

"We have created humans in the best stature, then rendered them the lowest of the low."

Daughters of Eve inherit not only her mitochondria, but her misfortune also. Logos were much harder for women and girls. Men could blame women as Adam had blamed Eve for the break of Lagos in Heaven. Therefore, some parents either killed their daughters or opted Female Genital Mutilation custom which is a painful and savage tradition. Girls are circumcised and their genital port is sewed, leaving only a small hole for urination and menstruation.

Female Genital Mutilation

One in ten cases of female genital mutilation is fatal. But it is a religious practice in countries where each and every girl is under risk of being raped, and for that fault to be stoned to death or beheaded. "In this primitive and abject state, which ill deserves the name of society, the human brute, without arts and laws, almost without sense", there was no other choice. In some other parts of the world it was the duty of the groom's mother to check the bed on the day after the wedding night to give a verdict about the virginity of the bride.

[&]quot;How unfair it is to shut in the harmless women, and let loose the men who do or at least are capable of doing no end of mischief!"

Superegoism For Individual

"Macbeth has murdered sleep, and therefore Macbeth will sleep no more."

Superegiosm consists of morality or conscience of humans that teaches what is right and what is wrong. Superegoism self-Service of doing something right gives self gratification and inflicts anxiety for doing something wrong. To be honest is a prerequisite for an individual to be free from anxiety. In doing the right thing one expects to be treated well by others in the society.

Superegoism teaches not to steal, or not break others' fences. The simple logic that if one steals, he will gain only if all others are honest. If everybody in a society are thieves, then the gain of stealing is not secured. Superegoism teaches not to kill anybody. Feeding of this Alucinatum helps in general all citizens so that people can sleep with less fear of being killed in sleep. A man who has murdered a person in sleep, cannot sleep well. The killed one comes in his nightmare and disturbs his sleep.

In the land of Utopia, there is no crime. The land of Utopia is established upon the morality of its citizens. To achieve such a society, all citizens have to be angels. Supernal Alucinatum Utopism is built upon Superegoism. Not only in Utopism, all other Supernal Alucinatum Paganism, Dogmatism, and also Patriotism have to depend upon Alucinatum Superegoism, because a society will collapse in want of Superegoism. It is Superegoism which helps Logos to keep order and discipline in the society. Superegoism is the invisible sentry of society and family. An individual is a member of a family and of a society. So, Superegoism in a society as a whole serves in the long run, to a great extent, an individual also.

Superegoism helps Lagos to maintain the reproduction of the society. The intake of Superegoism by individuals is a *sine qua non* for the society, although there are variations in norms and valuations. But, the Superegoism of a wolf and a lamb differs to a large extent. In a human society, there are humans who resemble wolves and lambs, but it is built upon consensus, and there exist some common aspects of Superegoism.

Part III

SUPERNAL ALUCINATUM

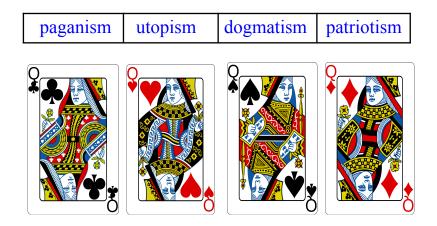

Supernal 3A Paganism

Supernal 3B Utopism

Supernal 3C **Dogmatism**

Supernal 3D Patriotism

Supernal Alucinatum consists of following Alucinatum: Paganism, Utopism, Dogmatism, and Patriotism, which can be associated with these four playing cards respectively:

The Supernal Alucinatum items are essential for the soul from the Universal perspective, like that food producing energy for the physical body.

Metaphorically the four Alucinatum items, Paganism, Utopism, Dogmatism, and Patriotism, are follow up from the four Bases: egos, pathos, ethos, and lagos, and these four can be related to the four Temperaments of the Soul: sanguine, melancholic, phlegmatic and choleric respectively.

Alucinatum

Egos	Pathos	Ethos	Logos
infatuation	affection	delution	adoration
egotism	altruism	gnosticism	superegoism
paganism	utopism	dogmatism	patriotism
Sanguine	Melancholic	Phlegmatic	Choleric

[&]quot;There is something pagan in me that I cannot shake off. In short, I deny nothing, but doubt everything."

Paganism is the first Supernal Alucinatum, a food cum drug which contains many of Vital Alucinata and Primal Alucinata, has its Base in Egos and which gives Sanguine Temperament. The three other Supernal Alucinata Dogmatism, Patriotism, and Utopism are indebted to Paganism which is the oldest.

Paganism gave humans consolation and strength for survival by seeing supernatural power in celestial bodies, in trees, rivers, mountains, and stones which could protect them. God of "Fire" arrived not only to protect the piteous, but also punished the Heathens. Speech enabled humans to communicate with each other. Oracles gave human miraculous Holy sounds of hymns for Omnipotent, Transcendent or Immanent Deity or Deities.

The source of knowledge in the ancient world was the oldest person in the flock, and knowledge was carried to the next generation by "Hearing". The number of Gods and Goddesses increased with increasing superstitions. When scripture was developed, many more Bellwethers of Omniscient Gnosticism appeared, and some of them gave people the sacred right to kill all captured men and women who were different, except the girls who had not intercourse with a man.

Imagery Paganism

"Dansa min docka, medan du är unger! När du blir gammal, blir du så tunger."

Dance my doll while you are young

"Dance my doll, while you are young! When you become old, you will become heavy!" is a children's song. Children think that dolls can eat, dance, sing, speak, and take part in playing. In their fantasy the dolls are equally alive. The dolls are alive in their dreams with movements, sounds and acts. Children can have nightmares when dreaming terrible things happen to their dolls. Such thought of children which attributes life in dolls is Imagery Paganism.

The Imagery Paganism of children is associated with Affection and disappears with the growth when they realize that dolls have no life. When children lose their milk teeth but lose their Imagery Paganism also. Then a Doll becomes only a lifeless toy.

Children who get permanent teeth, are to be fed with Alucinatum Supernal Paganism created by Omniscient Gnosticism. The effect of this Alucinatum becomes stronger when the permanent teeth begin to disappear one by one. There are three varieties of it: Pantheistic Paganism, Polytheistic Paganism, or Panentheistic Paganism. Each of these Paganism items contains ingredients of many *Vital* and *Primal* Alucinatum which can be necessary and sufficient to fulfill the need of an individual, a family, a Society, and a Country.

Pantheistic Paganism

"Then I will be called by a new name, and the arms of new affections will bind me. In this coming and going, it is the same eternal Me!"

Imagery Paganism is suitable for children who still have milk teeth, and it is ridiculous if someone with permanent teeth is still addicted to that Paganism. There are three varieties of Alucinatum Paganism suitable for grown up children and adults which are qualitatively enhanced Imagery Paganism.

The three varieties are: Pantheistic Paganism, Poly/Monotheistic Paganism, or Panentheistic Paganism. There are some qualitative differences in Omniscient Gnosticism about the conception of the character of the Soul as shown here:

Essence of the Soul: Immortal, Recycling, Creator, Incarnation

	Immortal	Recycling	Creator	Incarnation
	Yes/No	Yes/No	Yes/No	Yes/No
Pantheism	1	1	1	1
Pantheism2	1	1	0	0
Monotheism	1	0	1	0
Panentheism	1	0	1	1
Panentheism2	1	1	1	0

Paganism and Qualitatively Different Conceptions of the Soul

Pantheistic Paganism asserts that everything in the Universe is only a part of a Grand immanent soul, and departed souls may be recycled, and there may or may not be a Creator. Incarnated Creators can come to the Earth from time to time to save the creation.

The concept of Holy water or Holy stone or Holy tree arises from Pantheistic Paganism. In Pantheistic Paganism one comes back again in the world after death and get a new family and friends. The universe one can see is an illusion only. All sufferings in life arise from addiction to Infatuation.

Polytheistic/Monotheistic Paganism

"Now kill every boy, and kill every woman who has had sexual intercourse with a man. But all the young women who have not had sexual intercourse with a man will be yours."

In ancient times, people used to beat drums and loudly recited hymns during eclipses for driving away the celestial Demon which was going to swallow up the God Sun, or the Goddess Moon.

The Demon swallowing the Sun

Although Pantheistic Paganism of recycling of souls gave people tranquility, it did not comfort Egos when being eaten up by a tiger or die of cholera out of the consolation of rebirth. Egos cherish survival and protection. Therefore, Poly/Monotheistic Paganism emerged for the protection of humans. When the oracle "Eye for eye, tooth for tooth", and "Women for women" became true, then each and every clan got a Totem of their own or something like that as Patron for protection and for the preservation of their identity.

A Protector Totem

Worldwide many Omniscient Gnosticism like Hellenic Omniscient Gnosticism came in practice. But, the protection by the Deities against the Demons was not free of cost. The protector Gods and Goddesses must have rituals for their benevolence to humans.

Polytheistic Paganism

Many Gods and Goddesses were not satisfied with verbal adoration, flowers, or fruits, and wanted the sacrifice of bloodshed. Ritual sacrifice of animals and humans, particularly of children has been widespread all over the world. The God/Gods and Goddesses of Polytheistic/Monotheistic Paganism would pardon a life if another life was offered instead. Today, the ritual sacrifice of humans is obsolete, and it has been replaced by ritual sacrifice of animals and birds.

Ritual sacrifice of human

In Polytheistic Paganism, there are many Deities, and each of them has a specific task; for example: Goddess of Celebrity, God of Passion, Goddess of Love, Goddess of Riches and Power, and there may be a Head of all Gods.

No more the Sun and the Moon are worshiped as God and Goddess, but yet from the tradition of Poly/Monotheistic Paganism, all holy moments of rituals or prayers of people depend upon their positions, and people still believe that the conjunctures of celestial bodies determine the hoodoo moments of life.

Primitive addiction to one type of Polytheistic Paganism causes the death of thousands of Albino children every year in some parts of Africa out of the belief that their bones, flesh and blood have got great supernatural power. There people believe that a ritual with the body parts and the blood of an Albino can give one fortune, or can cure sickness.

Albino limbs for Fortune and Cure

The devotees of Poly/Monotheistic Paganism worship their God/Gods and Goddesses at different times of the year. Humans are created in the image of the God/Gods and Goddesses, and they may inhabit spaces between the two worlds at the same time. The Deities in Polytheism have greater or lesser status, individual skills, needs, passions, and history of their birth. Many of the adorned Gods of Polytheistic Paganism were indulged in rape and adultery. Nowadays, the reproduction of Polytheistic Gods and Goddesses has stopped.

Polytheistic Paganism is colourful and has many interesting mythology from unknown origin. Its market is shrinking and being taken over by comparatively modern Paganism, Panentheistic Paganism, which apparently is a hybrid of Poly/Monotheistic Paganism and Pantheistic Paganism.

Panentheistic Paganism

"Monotheism is one truth for the masses, but polytheism is many truths for the individuals."

Pantheistic and Polytheistic Paganism are the most old kind of Paganisms which had many truths and there the political and religious heads were different persons. Monotheistic Paganism which appeared later had only one truth, and there the political and the religious dogmatism became identical through despotism. These three kinds of Paganisms fought brutally against each other. Then there evolved a qualitatively different Paganism, Panentheistic Paganism which was a hybrid of Pantheistic, Polytheistic and Monotheistic Paganism. Panentheistic Paganism adopted the conception of *Recycling* of the soul or *Incarnation* of the Creator, and it was somewhat near to Pantheistic Paganism. Panentheistic Paganism was a congruence of many antagonistic ideas, and apparently it was more humane than Polytheistic Paganism and Monotheistic Paganism. The Omnipotent Creator in Panentheistic Paganism is seen as a transcendent entity who personally can come to the Earth by the process of *Incarnation* as a Redeemer for that purpose.

Incarnation

The consumption of Aluciantum Polytheistic Paganism ended in Europe and America when Panentheistic Paganism took its place. But, all the varieties of Supernal Alucinatum Paganism: Pantheistic Paganism, Poly/Monotheistic Paganism, and Panentheistic Paganism are available in Asia and Africa.

Alucinatum

Egos	Pathos	Ethos	Logos
infatuation	affection	delution	adoration
egotism	altruism	gnosticism	superegoism
paganism	utopism		
Sanguine	Melancholic	Phlegmatic	Choleric

"By far the greatest and most admirable form of wisdom is that needed to plan and beautify cities and human communities."

Utopism Dreamland

The second Supernal Alucinatum of the souls is Utopism, derived from the word *Utopia*, an ideal world, free of conflicts and miseries. Utopism has its Base in Pathos, grows along with Alucinatum Affection and Altruism. The vision of an ideal world is an unachievable goal, and a frustration results in the temperament of Melancholy.

Utopism emerges in four forms: Harmonious Utopism, Egalitarian Utopism, Freedom Utopism, and Goodness Utopism.

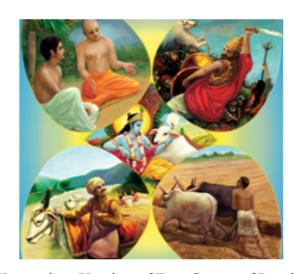

Harmonious Utopism

"Those who want to reap the benefits of a great nation must bear the fatigue of supporting it."

A human society was built upon Harmonious Utopism at the beginning of civilization. That Utopism was admitted in humans when they became social and wise as the ants. When people settled in some parts of the world from the advantage achieved by agriculture, villages appeared. Then exogamy became more common than endogamy. A cluster of villages made a King. Human societies in Kingdoms were built upon consensus from Harmonious Utopism.

People in a Kingdom were divided in four groups:

- a) Intellectuals and Priests
- b) Nobles and Warriors
- c) Farmers, Merchants, and Craftsmen
- d) Cultivators, Fishermen, and Hunters

Harmonious Utopism of Four Groups of People

Out of Egotism, neighbouring kingdoms were either allies or enemies. The border of a kingdom was temporary and subjected to strength. To Be or Not To Be wars between neighbouring kingdoms resulted in the merger of kingdoms, the stronger one becoming more and more big and strong. Alliance of kingdoms was cemented by the exogamy of princesses. Addiction to Infatuations of Celebrity, Passion and Money, in combination with Egotism, Dogmatism or Patriotism, gave the Kingdoms inspiration to wage war.

Such war is also common in case of the ants. When an ant Queendom wins over another ant Queendom, the victors kill the defeated Queen, her lovers, and her soldiers, but captivate her workers for service. The same also occurred in the case of humans. Men, women and children of the defeated kingdom became war booties, being slaves for the victors. Roman Empire is an example of such great kingdoms. Then, another group of people emerged, the slaves, the fifth group. The division of social groups was cemented by Logos, Alucinatum Adoration and Superegoism. An "Empire" was based upon the consensus of people of five classes, all were important for the Empire. Then a society of Harmonious Utopism became a robust society.

The history of humans is the history of wars for expansion of the border of an Empire out of Infatuation and Egotism. Aluciantum Harmonious Utopism had been originally a Patriarch that recommended placing women lower than men, with no rights for education, wealth or over their children. The slaves were treated worse than the cattle. To entertain their masters, the slaves had to kill each other as gladiators to exhibit the art of killing.

A Kingdom has been a machine to preserve the interest of a class of people. Pragmatic Bellwethers had an important role in keeping an Empire shining with glory for an inglorious bloody war. The Society built upon Harmonious Utopism was a class society where conflicts within a social group and between social groups were suppressed by the intake of Alucinatum such as Dogmatism and Patriotism. The British One-Nation Conservatism is a Harmonious Utopism which was produced by the Intellectuals in coalition with the Nobles, and it was voraciously consumed by the other three groups of the Empire. That made Britain a superpower which could conquer the whole world. An Empire based upon Harmonious Utopism remains strong as long as it can keep a balance by injecting Alucinatum Delusion in its subjects in order to keep the action of Alucinatum Dogmatism and Alucinatum Patriotism active all the time, and has to make changes necessary for adaptation. Harmonious Utopism has to compete with Egalitarian Utopism, and for maintaining its dominance, Harmonious Utopism becomes compelled to decrease or divert the conflicts that arise between social classes.

Egalitarian Utopism

"Utopia is the process of making a better world, the name for one path history can take, a dynamic, tumultuous, agonizing process, with no end. Struggle forever."

In Egalitarian Utopism all people are treated as equals, and have the same social, economic, political, and civil rights, irrespective of social group or gender, and thus it is opposed to the original Harmonious Utopism based upon hierarchy with different status. Decentralisation of political power and removal of economical inequality is the vision of Egalitarian Utopism.

Utopia of Liberty, Equality and Fraternity

The illusion of the robustness of Harmonious Utopism was broken for ever by the earthquake of the French Revolution with the motto of "Liberty, Equality and Fraternity" under the hegemony of a Goddess. The victory of the revolution established equal rights for all men, but not for women. Equality of all men came also in the American declaration of independence. The Egalitarian Utopism of the Soviet Revolution, that shook the world for ten days, was a phantasm.

Equality of all citizens, irrespective of colour and creed has been a burning question of the century. The existence of Racial discrimination and Apartheid has been verbally denied and practically defended by pragmatic Bellwethers.

Economic Egalitarian Utopism is the basic point of equality, but the inequality is now increasing exponentially. Egalitarian Utopism is defined today in a new context: "Equality does not mean an equal amount but equal opportunity", which in other words means "everybody has equal rights to be different".

Freedom Utopism

A woman said to the Sannyasi: "Father! Both humans and God have forsaken me!" Sannyasi replied: "The same is also with me! I have forsaken both humans and God!"

Naga Sannyasi

Freedom Utopism is a longing of human souls. However, the degree of freedom is a question. Physically humans are imprisoned for life on the planet Earth of the vast Universe. How to achieve freedom? Confucius prescribed three items for Freedom Utopism: Be virtuous to become free from anxiety, be wise to become free from perplexity, and be brave to become free from fear.

Thomas More dreamt of Freedom Utopism in an ideal society based upon rational principles. But, the conception of rational principles is arbitrary, and each and every society claims to follow rational principles.

Men become Monks and Abbots for Freedom from the burden of family. A sceptic has hypothesised that "A lustless thief is a sage, and an old prostitute becomes an ascetic." A man living in a society is, more or less, bound to it. Freedom Utopism is claimed by a "Naga Sannyasi", who is not bound to any house, who has no belongings with him, and who wears no clothes. He has no infatuation for Celebrity, Passion or Money. However, "Naga Sannyasi" lives on food served by his adorers, and in that way he is not free. Freedom Utopism is practiced by common people through meditation for relieving daily stress of arising from heavy burden.

Goodness Utopism

"God likes sacrifice, therefore Sacrifice is Good. / Sacrifice is Good, therefore God likes sacrifice."

Sacrifice is Good

There are two options in the Goodness of "Sacrifice". The first option is: Sacrifice is "Good" because God likes it. Then Sacrifice may have no inherent Goodness. The second option is: Sacrifice itself is "Good", and therefore God likes it. If so, the liking of God is redundant for its Goodness. The inherent Goodness of Sacrifice is independent of God's liking.

People of Athens sacrificed humans and animals in the belief that Sacrifice is Good. The dilemma of that Goodness is a Manon's complex". Socrates had a dilemma about "Goodness" out of his Humane Gnosticism. He proposed to go out searching for "Goodness" for the examination. His pupil Manon wondered how Socrates would search "Goodness" if he did not know what "Goodness" was!

"Goodness" is a "Menon Complex"

"Goodness" is still a dilemma. The blast of the Atom Bomb over Hiroshima was "Good" to President Truman, and out of his enthusiasm, he promised rain of Atom Bombs, another to be dropped over Nagasaki just after three days.

Atom Bombs as "Rain of ruin" was "Good" to President Truman

According to Socrates, all voluntary actions are driven from the thought of doing something "Overall Good" out of Goodness Utopism. Otherwise, one would not voluntarily do that. Socrates asserted that "Goodness" is linked to wisdom. It is ignorance which is responsible for all voluntary error and terror. The only way to achieve knowledge is to "Examine" via "Reflection". A Jury of 531 Athenians, out of their "Ignorance", and out of their "Goodwill" to save the young Athenians from sinful "Impiety", condemned Socrates to death.

Goodness Utopism seeks a correspondence between individual and community for one's self interest in order to live in harmony with one another, emphasises the value of human beings individually and collectively. Goodness Utopism is centred on human needs, interests, and abilities without any divine notions. Goodness Utopism is a dream for a society where distinction between law and morality will disappear. There, every citizen is a good person who counteracts all harmful and disruptive factors.

Some Feminists claim that the root of all evils is Patriarchy which has let loose men who do or at least capable of doing no end of mischief while harmless women are shut indoors. The "Lady Land" of their dream where men were shut indoors, virtuous Goodness Utopism is a reality, free from all crimes and conflicts. In that "Lady Land" of Goodness Utopism there is no police, no jail, because there is no crime.

Alucinatum

Egos	Pathos	Ethos	Logos
infatuation	affection	delution	adoration
egotism	altruism	gnosticism	superegoism
paganism	utopism	dogmatism	
Consults	Malanakatta	Dh I ammati a	Chalouis

"The world would not have been so funny if there were no fools."

A Bellwether leads a Flock

Dogmatism is the third Supernal Alucinatum which makes one think that there is only One Truth. It has its Base in Ethos, revived by Delusion and it is related to Omniscient Gnosticism, giving a Phlegmatic Temperament.

Alucinatum Dogmatism can be classified in four varieties: Religious, Political, Economic and Scientific Dogmatism. Humans blindly accepting Dogmatism become automations. Dogmatism is an essential Alucinatum for the soul. If the Supernal Aluciantum Dogmatism is thrown away, one will never find out where the enormous power of Alucinatum Dogmatism lies.

Religious Dogmatism

"Paid by the world what dost thou owe Me?" - God might question; now instead, 'Tis God shall repay! I am safer so."

Alucinatum Religious Dogmatism is a divine "*Truth*" which can be clarified, but never contradicted. Any suspicion about a part of the Dogma leads to fall out from the group. An addict of Religious Dogma may hold that all others who do not belong to his/her sect are wicked.

Religious Dogmatism has its direct Base in Ethos, and a diagonal relation to Pathos and Logos. Omniscient Gnosticism has given it all the necessary nourishment. Millions of men and women have made great sacrifices for the cause of Harmonious Utopism associated within Religious Dogmatism.

Religious Dogmatism can be exhibited in the form of a Holy Sign, Holy sound, or Holy rituals. The sign "Swastika" in a Religious Dogmatism stands for "Welcome the *Good* and drive away the *Evil*". In another Religious Dogmatism, the foreskin of a male child is sacrificed for the "*Good*", a ritual to make a boy ready for more sacrifices. The aim of these two Dogmatism are alike, but that divides the people into two hostile groups. Religious Dogmatism can kill Utopism which asserts that all humans are more alike than different.

Swastika and Circumcision

These types of qualitatively different perceptions of Religious Dogmatism can grow suspicion and hatred of a group against the other. Emperor Akbar of India had realized four hundred years ago that this kind of antagonistic Religious Dogmatism can divide people. So, Emperor Akbar wanted to have one religion and one language for India.

Deen-i-Elahi of Emperor Akbar the Great

The theme of Akbar's religion *Deen-i-Elahi* was: There is no God but God "Elahi", and the Emperor is His representative. Akbar's vision of one language has survived, but his religion *Deen-i-Elahi* failed due to lack of divinity. India had both civilization and strength like China, and thus could protect herself from being a British colony, being governed by "Divide and Rule Policy", if the vision of Religious Dogmatism of Akbar had been realised.

So, there are many pros and cons of addiction to Religious Dogmatism. It can give people tranquillity, happiness, consolation, and a hope to live further, and promise for rewards to compensate the distresses and sufferings encountered in this life due to inherent Delusion in it, and it a very important Alucinatum for an unsuccessful person or a person going to die in disgrace.

Religious Dogmatism boosts up the Egotism and Infatuation of people to an unprecedented level and Delusion is its appetiser. The triumph of the Arabs and Europeans was due to their strong addiction to Religious Dogmatism. The historical tyranny of the priests was due to their absolute power gained from Religious Dogmatism which witnessed many grave tragedies of humanity.

Political Dogmatism

"We all romanticise the people we adore."

Alucinatum Political Dogmatism emerged at the creation of ancient Kingdoms to ensure the stability of the social pyramid. Religious Dogmatism based upon Polytheistic Pantheism was the idol in Political Dogmatism of the Kingdoms which grew up to Empires.

Political Dogmatism

The founders of a republic or monarchy needed Adoration to stay in power. No Political power can stay for a long time only on swords. People have to be fed with Alucinatum Political Dogmatism that inspires them to become martyrs for the Kingdom with the motto "Long live the King!". The book "The Prince" by Machiavelli is an "Old Testament" of Political Dogmatism.

Jeanne d'Arc: Long live the King!

Political Dogmatism of Harmonious Utopism and Egalitarian Utopism has always been in war. Monarchy has always preferred Political Dogmatism of Harmonious Utopism allied with Poly/Monotheistic or Panentheistic Religious Dogmatism and Egoistic Altruism. Sometimes the Political Dogmatism of the Republic replaced the Kingdom. Democracy pleaded for Egalitarian Utopism, aided by original Mono/Panentheistic Religious Dogmatism and Altruism.

The leaders of Republics sometimes needed blessings by Theistic Religious Dogmatism, but they were not descendents of the Gods and Goddesses. The Kingdom of Rome was overthrown in 509 BCE, and the Roman Republic was established based on the principle of Government of the people, nourished by the captivated slaves. The vigour from Democratic Political Dogmatism triumphed for a period of five hundred years which ended in the year 27 BCE at the establishment of the Roman Empire.

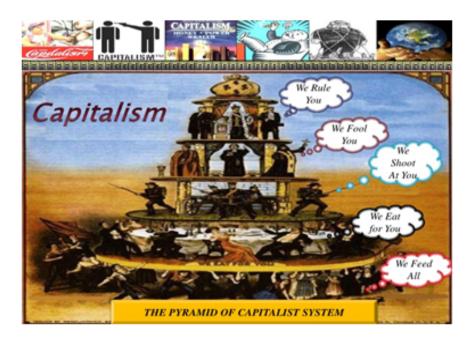

Napoleon crowns himself

The slogan "Liberty, Equality, and Fraternity" of the French Revolution got an abrupt transition to Monarchy when Napoleon after the victory crowned himself. That has always been a risk and to circumvent that problem the Indian Omniscient Gnosticism introduced the Religious Dogmatism of Caste system where nobody could change his profession of birth without a rebirth.

Nowadays, both of the two Gnosticism of Political Dogmatism have become ineffective due to the domination by Globalised Economic Dogmatism. Today, the Royalists pretend as Republicans and the Democrats resemble Socialists, but their demagogy meets the giggle of Omnipotent Economic Dogmatism.

Economic Dogmatism

"There is no art which one government sooner learns of another than that of draining money from the pocket of the people."

Hundreds of years ago, the European "Merchants of Death" heard the oracle "Your wealth is Nation's Wealth". Bellwethers of Economic Dogmatism gave a moral boost to become rich by the Mantra of "Laissez Faire" in trade of slave, opium, and weapons or plundering out of Infatuation with Money.

Today, Economic Dogmatism has become the most powerful Dogmatism. A civil government, so far as it is instituted for the security of property, is in reality instituted for the defense of the rich against the poor, or of those who have some property against the have nots. The financial institutes lend money to get profit. If a financial institute becomes bankrupt due to scandalous Infatuation with Money of its Bosses, and a huge loan to people who cannot pay the rent, then others who were not involved in it are forced to compensate for the loss. A government instituted to save the Financial Institutions.

Today, the "Red Bourgeoisies" of China pay homage to Mao Zedong, the Bellwether of the Proletariat working class, and a Guru of Egalitarian Political Dogmatism. Under Globalization, the "Arbeit Macht Frei" camps have been shifted to the LDCs, but without any signboard.

International parade of wealth is visible everywhere. Supreme and Super rich men of different nationalities have become Americans in America, Frenchmen in France, Englishmen in England, Germans in Germany, Japanese in Japan, Chinese in China. The defaming of Economic Dogmatism as devoid of Ethos is gone forever. The truth of "*Humanity* is a virtue of women and *Generosity* is that of men" has been strongly established. The Tycoons, who sleep on the bed of oceans of money, compete today with Mother Theresa in Altruism.

An approximate Global distribution of **Wealth** in \$ vs. **Number of Person** may be shown in a Table here:

nominal rich	minor rich	very rich	super rich	supreme rich
10 M\$	100 M\$	1,000 M\$	10,000 M\$	100,000 M\$
<u>@</u> 1,000,000	<u>@</u> 100,000	<u>@</u> 10,000	<u>@</u> 1,000	<u>@</u> 100

Wealth [Million \$] vs. Number of Person [@]

A Supreme Rich (in violet) on the most right can see a Super Rich (in blue) on the left as a poor fellow. The same is true for a person in a Right group towards a "poor" rich in the group on the left. But, a poor person can see all of them equally rich, as we see all the planets visible in naked eye almost of equal size. The differences of richness can be illustrated with an allegory Hanoi Tower.

Hanoi Tower allegory of the five groups of Rich

Scientific Dogmatism

"Scientists have sometimes been the greatest offenders in adhering to dogmatic ideas against all the evidence."

Scientific Dogmatism arises from addiction to Omniscient Gnosticism "I know that which ye know not", as in case of Religious Dogmatism. An example of Scientific Dogmatism is the Dogmatism of the Geocentric Model: The Earth is flat disc, and the Sun rises in the East and sets in the West.

The Geocentric Model is not wrong, if one knows its limitations. A straight line is a curve whose radius is infinite. In relation to the size of humans and the Earth, the radius of the Earth is nearly infinite. The Earth is then almost flat.

To an ant, the radius of Earth is infinity

Sun rises in the East and sets in the West is an observed truth. All motions are relative to the reference point. If the centre of the Universe is the Earth, then, the Sun can be seen as revolving around the planet Earth. In that model, the calculation of the movements of the celestial bodies becomes somewhat cumbersome, but the Geocentric Model is Ok for the Astrologers to calculate the conjunctions in finding the horoscope of the day.

The Geocentric Model of Scientific Dogmatism led the Omniscient Religious Dogmatism to accept that Model as the "Only Truth". The proponents of the Heliocentric Model, that the Earth is a sphere which rotates around the Sun, was burnt alive upon stakes for heresy.

There is nothing wrong with the two models. In relativity, it does not matter if Muhammad goes to the mountain, or the mountain comes to Muhammad. In Humane Gnosticism, Science cannot ascertain anything, it can only reject a hypothesis. A Scientific hypothesis is not the last truth, but the best truth.

Aristotle was a genius Bellwether of Scientific Dogmatism who was the Guru of Religious Bellwethers, and who misguided the world out of his Omniscient Gnosticism. He established the Geocentric Model of Ptolemy and rejected the contemporary Heliocentric Model of Aristarchus.

Aristotle, a Genius Bellwether of Scientific Dogmatism

Aristotle also confirmed the conception of four basic elements: air, water, fire, and earth. The other hypothesis of Aristotle in Biological Science about the reproduction in mammals was even worse. Out of ignorance he claimed that the sperms in males were like seeds to be sowed in women as substrates for growth. The "Spermism" Scientific Dogma of Aristotle legitimated the Patriarchy of the Bellwethers of Religious Dogmatism and Political Dogmatism, and that deprived women from their right over children. In Social science, Aristotle pleaded man to give his wife a status slightly over the slaves.

Scientific Dogmatism can play an important role only if one is aware where the weakness of that Dogmatism lies. Einstein broke the Newtonian Scientific Dogmatism of Mass-Energy, and Nature of Light. Out of Humane Gnosticism, "I know that I do not know", Einstein said "No amount of experimentation can ever prove me right; but a single experiment can prove me wrong".

Alucinatum

Egos	Pathos	Ethos	Logos
infatuation	affection	delution	adoration
egotism	altruism	gnosticism	superegoism
paganism	utopism	dogmatism	patriotism
Sanguine	Melancholic	Phlegmatic	Cholerie

"What passing-bells for those who die as cattle? Only the monstrous anger of the guns, Only the stuttering rifles' rapid rattle, Can patter out their hasty orisons."

The fourth Supernal Alucinatum is **Patriotism**, the intake of which may boost up Egotism to an unprecedented level. Patriotism has its Base in Logos, emerged from Alucinatum Adoration at the foundation of Kingdoms from the society, which in course of time placed itself above the society.

Supernal Alucinatum Patriotism leads to Choleric Temperament. A person addicted to Patriotism can commit murder with vigour and enthusiasm, or become a martyr with a smile of Mona Lisa which remains intact hundreds of years afterward which can be seen at the teeth of his skull. A person who lives on weapon, often dies also by weapon. So, who becomes a murderer out of Patriotism, may become a martyr also. A patriot dying in the warfield hears out of hallucination that his "Katiusha" is singing to adore for his courage and sacrifice of life: "phusch on zemlio bherjhiot rodnuio!" (Let him battle for the honour of the Fatherland!) although a year later she, embracing her new lover, will joke of his death so that her new lover would not become envious.

There are four kinds of Alucinatum Patriotism: Caveman Patriotism, Anthill Patriotism, Jingo Patriotism, and Grand Patriotism

Caveman Patriotism

"At the call of tom-toms, all members of a cave became ready to fight."

Caveman Patriotism is the most primitive Patriotism which appeared when the ancestors of Homo sapiens came down from trees and took shelter in caves. Caves gave them protection from rain and storms. Like herds of animals, Homo sapiens lived in large groups in order to protect themselves from predators. Human beings living in caves were hunters. There were often skirmishes between dwellers of the neighboring caves on quarrel over territory of hunting, right over lakes, holy trees or holy stones.

Humans living in caves were cannibals. A stronger flock attacked a weaker flock at the aim of capturing their shelter, and to eat up them. At the call of tom-toms, all members of the cave became ready for battle out of Caveman Patriotism, with the spirit of To Be or Not To Be. If any member of the cave did not readily respond to the primitive call of tom-toms and the blare of the war, all others suspected his/her patriotism, or even called him/her a traitor. Their spirit of battle was enhanced by the oracles from their Deities. Each and every group had their own symbols of Totem which needed to feel secured through divine help. They suspected, feared and hated all outsiders.

Out of Caveman Patriotism, each and every group of cannibals used to think themselves superior to humans of other groups. They did not eat their own people unless that was a ritual one. They thought only themselves as human beings, and all those two-legged animals they ate were birds without wings.

All the members living in a cave had a common language, and all were bonded by blood relation, and all carried almost identical genes. Endogamy prevailed in reproduction. Incest was not a taboo, and inbreeding was common.

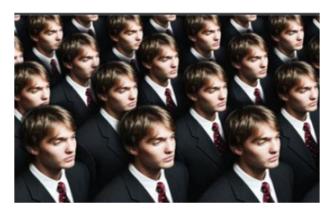

It is told in Bible that Prophet Lot together with his two daughters had fled away from the land of Sodomy before its destruction. They lived in a cave where the daughters seduced their father Prophet Lot, and as Daughter-Father couples they bore his two sons Moab (from the father), and Ben-Ammi, from whom came the generations Moabites and Ammonites of Israel.

In the Cave: Prophet Lot was seduced by his two daughters

That type of inbreeding was common in humans living in caves. Mothers were often siblings of their own children, as that was in case of the daughters of Lot. Later, when humans left the caves to build villages, the caves were left behind as a bunker, place for meditations, or as a meeting place for angels of the deities. Although humans no longer lived in Caves, much of that primitive Caveman Patriotism was inherited by other forms of narcissistic Patriotism.

Cavemen Patriotism is the mother of Jingo Patriotism of "One blood, One language, and one Nation." When such Patriotism gets nourished, people listen to the most violent voice, and go out in lawless outbursts against people who oppose that, and whose motive they never try to understand. A little difference in opinion is sufficient ingredient for a furious incitement. "Shoot them at sight!", "Hang all of them openly!", "Slay them first, and try them after!" are the slogans coming from souls drugged by Caveman Patriotism.

Products of Cavemen Patriotism

Anthill Patriotism

"Men rise from one ambition to another: first, they seek to secure themselves against attack, and then they attack others."

Agriculture forced humans to settle in fertile lands. Humans built houses for shelter. Together with other groups emerged villages. emerged. Clans emerged from the kinship of the settlers at a place. Clusters of villages got a ruler called a King. Human civilisation developed to the level of the civilisation of the ants with a Patriotism like that of the ants. However, the Patriotism of the ants is much older, fifty million years old, much older than that of humans.

An ant colony comprises a Queen, her lovers, her soldiers and workers. The ants live together by biochemical *pheromone* of the Queen, while that comes in humans from Anthill Patriotism. In war between two ant colonies, the victors kill the defeated ant Queen, her lovers, her soldiers, and captivate the workers.

Anthill Queendom

War between Queendoms Soldier Ants in war

During ancient Cavemen Patriotism, the Totem deities had no home of their own. The Deities Poly/Monotheistic Religious Dogmatism led to construction of temples at the centers of human colonies. Exchange of cattle, foodgrains and goods flourished from the introduction of Cowries as Money. Patriarchy replaced Matriarchy. Exogamy replaced endogamy. A girl could be exchanged for ten cows or seventy goats. Women became bound like trees, childhood at parents, and the rest at parents-in-law. Princesses were given as presents to the emperors in order to make political alliances.

Infatuation of Celebrity, Passion, Money, and Eden united thousands of men by Anthill Patriotism which caused endless war out of the drive of Egotism. Kingdoms were always involved in bloody wars. There was a great increase of arrogance, conceit and brutality. Those who are born in some particular spot consider themselves better, nobler, grander, and more intelligent than those living in any other spot. People sink low in time of war, although that is never high during peace-time either.

Religious Dogmatism of Polytheistic Paganism was an essential Alucinatum for Alucinatum Anthill Patriotism. King Agamemnon of ancient Greece was forced to sacrifice his daughter *Iphigenia* at the altar of Hellenic Polytheistic Paganism. When the call of Tom-Toms made all Greeks ready for battle in the war for the honour of the land of birth, to raise the tempo to maximum, King Agamemnon got the oracle to sacrifice his dearest, his daughter Iphigenia.

Princess Iphigenia to be sacrificed

Queen Clytemnestra, the mother, had tried to save her daughter *Ifigenia*. But, the Affection of Agamemnon was lost due to his addiction to Infatuation and the Anthill Patriotism of his countrymen. *Ifigenia* was engaged to Achilles. The sacrifice made Agamemnon and Achilles Affectionless Psychopaths, needed to commit homicide. When Agamemnon came back home as a victor with his war booty Princess *Cassandra* of Troy, Clytemnestra took her revenge for the murder of *Iphigenia* by killing Agamemnon. Then, Clytemnestra was also murdered by her other daughter *Elektra* out of *Electra complex*.

Jingo Patriotism

"War should be the only study of a prince. He should consider peace only as a breathing-time, which gives him leisure to contrive, and furnishes as ability to execute military plans."

Textbooks are written out of Alucinatum Jingo Patriotism with fabricated stories about the heroes who were killed in the war as cattle. Alucinatum Jingo Patriotism poison the souls of people with blood curdling stories about the enemies. When a child becomes an adult, he/she is then thoroughly crammed with baseless beliefs and superstitions fabricated by Jingo Patriotism.

Jingo Patriotism clamours for a greater army and navy, more battleships and more ammunition which will cause suffering of people at home as well of the people at other parts of the world. Jingo Patriotism creates feverishly excited Jingo crowds who are vociferous supporters of an aggressive war. Jingo Patriotism makes people sing hymns to wage war for glory and war booties. Then the whole Nation then becomes a homicidal crowd which looks at the blood not only of the enemies, but also of those who want peace. If someone does not dance to the music of the national anthem, all others suspect his/her patriotism. Jingo Patriotism encourages conceit, arrogance, conspiracy, and conflicts. An addict of Jingo Patriotism thinks that it is his/her duty to kill and die in the attempt of imposing superiority upon others.

"Komma, Krypa Knäna, Tigga! Vit mans slav!"*

^{* &}quot;Come! Creep! Kneel and Beg! White man's slave!"

Out of racial supremacism, the European Jingo Patriotism asserted that the "Nigers" in America, Asia, Africa, Oceania, and Australia were "The White Man's Burden". It was their moral duty to "civilise" those savages. Slave trader Robinson Crusoe became an idol. Robinson had saved Negro "Friday" from being slaughtered by his countrymen. But, those slaves whom Robinson and his peers sold in auctions were less fortunate than "Friday".

Auction of slaves in New York

Alucinatum Jingo Patriotism curves individual freedom, and it is by definition collective. The intake of Aluciantum Jingo Patriotism forces people to think solely in terms of competitive prestige, using energy in boosting the spirit of victories and triumphs, while pledging revenge for defeats and humiliations. Addicts of Jingo Patriotism can see history as the endless rise and decline of great powers, and every event that happens seems to them a demonstration that upgrades their own side and downgrades the rival. This includes the two World Wars where Jingo Patriotism was a key component of propaganda material.

Jingo Patriotism exploits and encourages people to partake in the conflict and war. Britain, France, Russia, and Spain succeeded to conquer Asia, Africa, and America by Jingo Patriotism. There they stopped fighting between themselves. Then, a hundred years ago, there were eight Giants of Jingo Patriotism that dominated the world: Anglo-American, Russian, French, Spanish-Portuguese, German, Japanese, and Italian. But, Germany, Japan, and Italy did not have their due share of the world. That rivalry on sharing led ultimately to the two World Wars.

Jingo Patriotism and Economic Dogmatism cannot be separated. The Mantra of Economic Dogmatism is: "Consumption is the sole end and purpose of all production; and the interest of the producer ought to be attended to, only so far it may be necessary for promoting that of the consumer." But, Monopoly of the world market did not allow many producers from having raw materials and getting consumers. The world was already occupied by Jingo Patriotism who came first on the basis of first come, first served. The Second World War was between the first three addicts of Jingo Patriotism: Anglo-American, Russian, and French, against the last three much younger addicts of Jingo Patriotism: German, Japanese, and Italian out of the conflict of share of the world.

Mein Kampf

Hiroshima Tragedy

The victors of the war pledged to avoid world war, and to collaborate in the domination of the world. That resulted in Globalisation and the dominance of Economic Dogmatism over addiction to Jingo Patriotism. The latest homicides due to addiction to Jingo Patriotism occurred in Vietnam and Bosnia.

Genocide in Vietnam

Genocide in Bosnia

Grand Patriotism

"Can a communist who is internationalist, at the same time be a patriot? We hold that he not only can be but must be."

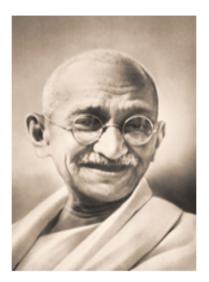

Golden Mega Mao Zedong

Some super rich men in China made a thirty six meter high golden statue of Mao Zedong. Mao Zedong was a Bellwether in Economic Dogmatism who had fed people with Grand Patriotism which had enabled China to become free from devastation by the Giants of Jingo Patriotism. Mao Zedong who adopted "Barrel of Guns" in his struggle had lost 90,000 of his 100,000 comrades during the long march and his wife was caught by enemies and hanged. He won due to the Second World War war between the then G7 Jingo Patriotism. Great helmsman Mao Zedong could never foresee that he would be adored more for his Grand Patriotism than for his Egalitarian Utopism with his Political Dogmatism of *Mao Zedong's Thought*.

The Grand Patriotism of India was different one. India was a subcontinent divided by many ethno-religious groups with many languages. Above all, India had an insurmountable barrier between people due to the indomitable *Caste system*. Mahatma Gandhi fed people with Grand Patriotism based on Harmonious Utopism. In his struggle for emancipation, he adopted "Non-violence", "Non-Cooperation" and "Civil Disobedience" instead of "Barrel of Guns." He adopted the historical technique of Non-violence. In the seventh and eighth centuries, the students and teachers of the University of Nalanda, out of their intake of Alucinatum Religious Dogmatism of Buddhism, let themselves lie down on the war field in order to prevent wars between Kingdoms.

"Generations to come will scarcely believe that such a one as this ever in flesh and blood walked upon this Earth." - *Albert Einstein*

Mahatma Gandhi

The real name of Mahatma Gandhi was *Karamchand* Gandhi. He got the title *Mahatma* (the Great Soul) by Rabindranath Tagore. Mahatma Gandhi was assassinated by his own countrymen who were addicted to Alucinatum Jingo Patriotism in combination with Religious Dogmatism, because Mahatma Gandhi, out of his Harmonious Utopism, resisted the genocide of Muslims.

Grand Patriotism in various forms flourished in Asia, Latin America, and Africa in the beginning of the twentieth century.

Mandela burns his South African pass

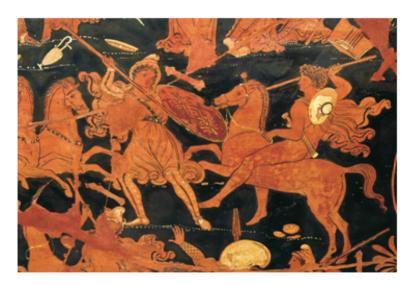

At the end of the twentieth century, China, India and some parts of Asia, Latin America, and Africa succeeded partially to compete as global actors, but they had to give up Egalitarian Utopism, and introduced Harmonious Utopism.

Jingo Patriotism can win over Grand Patriotism militarily due to stronger Egotism with Affectionless Psychopathy. But the varieties of Patriotism cannot qualify every individual because an individual can sometimes appear in many varieties. A sinner can become a good preacher of virtue.

Historically, the four varieties Alucinatum Supernal Patriotism: Cavemen Patriotism, Anthill Patriotism, Jingo Patriotism, and Grand Patriotism have existed side by side, contested and collaborated, and often were integrated to Alucinata Paganism, Utopism and Dogmatism.

The technique of using *Trojan Horse* or the *5th columnists* in order to sustain hegemony has been practised by Anthill Patriotism and Jingo Patriotism.

Religious Dogmatism integrated with Jingo Patriotism took the life of Princess *Iphigenia* which made King Agamemnon and Knight Achilles Affectionless Psychopaths, tools of *Mephistopheles* who could commit genocides. Achilles led the assault against the Ladyland of Grand Patriotism of the *Amazonas* and that land devastated by Greek Jingo Patriotism.

The fall of the Ladyland of Amazonas

[&]quot;There is nothing more inglorious than that glory which is gained by war."

An individual can change radically in time as that happened in case Achilles. The life of Achilles is an interesting story. He was a child of rape. *Thetis* was raped by the husband of her foster mother. She brought up Achilles as a girl together with other girls in the aim to refrain him from seeking a short and glorious life due to the intake of "Celebrity Infatuation". But, at the call of the *Tom Toms* for war, that secret came to light, and Achilles was recruited in the army. The sacrifice of his fiancee *Iphigenia* made him psychologically ready to become a champion in the art of killing.

Knight Achilles became a king, adored out of Jingo Patriotism who won over Grand Patriotism of the Ladyland of the *Amazonas*. Achilles devastated the Ladyland, and he killed Queen *Penthesilea*.

Coins of Achilles

In all ages people have adored both Angels and Mephistopheles. Achilles was an "*Ideal Prince*", an addict to Alucinatum Jingo Patriotism as well as to Celebrity Infatuation. Murderer Achilles became a martyr in the Trojan war for restoring "*berejhiet rodnyu*" (бережет родную) of Greece due to the vulnerability of his heel. His mother *Thetis* had failed to keep her son Achilles away from the addiction to some Alucinatum which led him to an (in)glorious short life instead of her desired ordinary long life without any celebrity.

EGOS

Egos		Logos
infatuation		adoration
egotism		superegoism
paganism		
Sanguine		

Egos is the "Self", especially as distinct from others as a fingerprint. "Egos" in Latin means "I", a virtual entity embedding the selfish DNA. Egos controls one's thoughts and behavior. It has the functions of judgment, reality testing, planning, defense, synthesis of information, and action based upon experiences and memory.

Egos comprises the organized parts of the personality structure that include defensive, perceptual, intellectual, cognitive, and executive functions. Conscious awareness resides in the Egos, but not all of the operations of the Egos are conscious.

Fingerprint

Selfish DNA

In a society, Egos has to be obedient to superegos and Logos. Egos has to balance in satisfying its primitive drives originated from DNA and the demands of Superegos which constantly watches Egos, and punishes her with feelings of guilt and anxiety in case of foul acts. This Master-Slave relation causes conflicts. In order to win, Egos searches for loop-hole in the rules of social morals, norms and taboos, or uses mechanisms of denial, fantasy, compensation, projection, regression, repression, and sublimation for escaping from rule of Superegos.

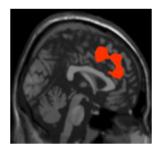

Vital Alucinatum Infatuation and Primal Alucinatum Egotism keeps Egos Sanguine in the long span of life. The intake of Supernal Alucinatum Paganism gives Egos the spirit to go forward in spite of all odds.

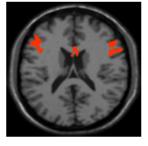

PATHOS

Egos	Pathos	Ethos	
	affection		
	altruism		
	utopism		
	Melancholic		

Pathos is a quality that arouses feelings of pity, sympathy, tenderness, or sorrow. It is an abiding commitment of the heart. Pathos makes us feel pain when we see someone inflicted by pain.

The Persian story of Laila and Majnun tells us that when Laila was whipped by her husband, Majnun got pain and marking in those parts of his own body. Pathos is the base of Vital Alucinatum Affection and Primal Alucinatum Altruism. On the contrary, if the areas of "Joy" in the brain are activated to see the pain of others, that is diagnosis of personality disorder, - the person is a Psychopath.

Joy

Pain

Vital Alucinatum Egotism, Primal Alucinatum Infatuation, and Supernal Alucinatum Paganism which keep Egos Sanguistic, may work against Affection, Altruism, and Utopism.

An affectionate one may hurt which gives double sorrow. A major part of resources meant for Altruism, may ultimately serve Egoists which can make an Altruist or Utopist sad. The Supernal Alucinatum Utopism cherished by many as pious wish, in the long run appears to be a day-dream. All these which had the source in Pathos, lead us to become Melancholic.

ETHOS

Egos	Pathos	Ethos	Logos
		delusion	
		gnosticism	
		dogmatism	
		Phlegmatic	

Ethos means the moral character or fundamental values of a specific person, people, culture, or movement to decide which is right or which is wrong. Human children show some inborn Ethos, and more taught by the society. The norms, ideas and customs in a Society are usually modified at the urge of the Ethos.

Judas identifies Jesus by a kiss

Some ethical values do not change in time. Judas identified Jesus, accused for blasphemy (son of God), terrorism (raid of market inside Jerusalem temple) and rebellion (King of the Jews). The act of Judas was against Ethos, although in accordance with Logos. Judas was rewarded with 12 Shekels.

People occasionally act against Ethos out of Egotism, Infatuation of Riches and Passion Infatuation. In that adverse situation, Vital Alucinatum Delusion, Primal Alucinatum Gnosticism, and Supernal Alucinatum Dogmatism may keep Ethos Phlegmatic, away from total degradation.

LOGOS

Egos	Pathos	Ethos	Logos
			adoration
			superegoism
			patriotism
			Choleric

"Then shall the father of the damsel, and her mother, take and bring forth the tokens of the damsel's virginity unto the elders of the city. If the tokens of virginity cannot be proved, then the damsel shall be brought to the door of her father's house, and the men of the city shall stone her to death, because she hath wrought folly in Israel." — Deuteronomy 22:13

Stoned to death in doubt of virginity

Disobedient slaves

Logos comprises principle, order, standard, logic, and judicial law and regulation set by the rulers. Violation of Logos is punished accordingly to set as examples. Pathos and/or Ethos may have difficulties to agree with the acts of Logos. Logos claims itself impartial, but Logos are usually made to serve the interest of a group, often for men.

But, in spite of all injustices and irregularities, for good and evil, the practice of following Logos is the base of a society or a state. The principles based upon Logos are being extended world-wide. Vital Alucinatum Adoration, Primal Alucinatum Superegos, and Supernal Alucinatum Patriotism depend upon the contribution of Logos, giving people a choleric mood against who are different.

Glossary

Adoration is to respect, reverence, strong admiration or devotion, derived from Latin, meaning "to worship someone or something".

Affection is an emotional state of a soul for an object, synonymous to the word empathy, derived from Greek word Pathos or suffering. Affection can arise for anyone or anything. The loss of an affectionate causes a state of melancholy.

Altruism is sacrificing something for someone other than the self, such as sacrificing time, energy or possessions, without any expectation of return, compensation or benefit, either direct or indirect.

Choleric is a mood of bad temper or angry mood associated with egocentrism, ambition for leadership, impulsiveness and restlessness.

Delusion is a strong conviction despite strong evidence to the contrary, an essential item which makes a soul phlegmatic through a mechanism of one kind conscious self-deception. It is distinct from beliefs based upon false or incomplete information or an illusion.

Dogmatism is from Greek word Dogma, which means opinion or belief. It can also mean "to think, to suppose, to imagine". Dogmatism is a set of beliefs held stubbornly with intolerance, in ideological, political and scientific beliefs.

Egotism is closely related to "loving only one's self". Egotists are selfish, arrogant and boastful. They cannot recognize the accomplishments of others, while sensitivity to criticism may lead them to narcissistic rage as a sense of insult.

Gnosticism is derived from Greek word meaning "knowledge", enlightenment, and salvation. The world associated with matter, flesh, and time is an imperfect one. The upper world associated with the soul is perfect and eternal.

Infatuation is silly or crazy attachment to someone or something that often overwhelms human thoughts and acts. Typical infatuations are Celebrity infatuation, Passion infatuation, infatuation for Riches, and infatuation for Eden. Infatuation makes a soul drowsy and subjects the body to become a Zombie.

Melancholic is a mood associated with the feeling of sadness, cautiousness and depression out of tragedy in the world, focused on conscientiousness, and sympathy for others.

Paganism is a belief that the material and spiritual worlds are one. The divinity is always present in nature, and the deity or supernatural power is immanent in nature, such as in holy water, in lucky stone or in celestial constellations, etc. Paganism overrides rational knowledge, and thus may keep one soul sanguine in all situations.

Patriotism is a narcissistic outlook which affords human beings with a *delusion grandiose* about our own geographical region, own culture, own creed, own language, own belief, or own economic system, and thus it creates superstitions about others, resulting in a choleric state of the souls concerned.

Phlegmatic is a mood of being calm, - not being easily excited or worried. It is to be caring, tolerant, contented, steadfast, consistent in habits, inward, and faithful.

Sanguine is a mood of cheerfulness and being hopeful, lively, sociable, carefree, talkative, pleasure-seeking, optimistic, imaginative, artistic, and changeable.

Superegos are cultural and social rules mainly taught by the parents and the teachers as "virtue". Superego implants "Fear" and taboos in human souls in order to enable them to control or divert our primitive drives, fantasies, feelings, and actions which may harm a family or a society.

Utopism or Utopianism is a concept of ideal or perfections for human beings, individual and collective, over established social systems or faith. Utopism refers to morality centered on mankind, without attention to any notions of the divine. Recurring delusions from the facts of reality and failures drives Utopists to the state of melancholy.

Supernal Alucinatum in Universal Perspective

The book "Food and Drug Alucinatum for Human Soul" has been retrieved from a USB Thumb Drive which was "Lost and Found" in Overby of Gjovik, written by someone called "The Wandering Jew". According to the Holy Bible, The Wandering Jew has been walking for the last two thousand years, and he cannot stop until the Second Advent. To find what Jesus meant by "Man cannot live with bread alone" and what are the others, "The Wandering Jew" became infatuated like Eva, being eager for eating the fruit of knowledge, and infatuated like Pandora, being curious for opening the mysterious box.

At last, just a few decades before the Second Advent to come in the year 2060, as Isaac Newton calculated, "The Wandering Jew" has come to learn what are the items in addition to bread without which man cannot live and man needs to feed the soul. Some of these undetectable and immaterial food and drug for our souls were used by our ancestors. Such food and drug items exist in Holy water, Holy smell, Holy sign, Holy sight, and Holy sound. "The Wandering Jew" named the immaterial ingredients in all of such items as "Alucinatum".

The intake of Alucinatum makes us romantic and keeps us optimistic in hopeless situations, and enables us to overcome or lessen the fear and agony of death. In the three stages of grief: *Shock*, *Rage*, and *Reconstruction*, Alucinatum is the best resort to console us. In want of an Alucinatum, life becomes hopeless, disgraceful, and of comparatively shorter in length. On the other hand, a gross intake of an Alucinatum at a time can be fatal as water-poisoning.

Walhalla: Eternal home of the Soul

The Wandering Jew

The selfish DNA can instinctively inspire one to sacrifice his/her own life for the sake of two siblings or eight cousins through secretion of oxytocin hormone. Vis-a-vis, *Vital* Alucinatum *Delusion* can revive an illusion by nine lives to make someone willing to sacrifice all that one has for the benefit of a group of people whose souls are fed with the *Supernal* Alucinatum items of *Paganism*, *Utopism*, *Dogmatism* or *Patriotism*.
